Humphrey And McGovern Primary Winners

By **WALTER R. MEARS**
AP Political Writer
Sen. George McGovern, triumphant in Massachusetts, and Sen. Hubert H. Humphrey, the Pennsylvania victor, joined political battle today after dealing a devastating one-two blow to the presidential campaign of Sen. Edmund S. Muskie.
But the senator from Maine said in defeat that his rivals for White House nomination will "have to fight like hell to take it away" from him.
Alabama Gov. George C.

Wallace ran a startling second in Pennsylvania, after stinging a one-day campaign. Massachusetts gave Wallace 8 per cent of the vote in partial returns, just ahead of Humphrey.
Next Tuesday, McGovern and Humphrey confront each other, Muskie and Sen. Henry M. Jackson of Washington in an Ohio battle for 153 convention delegates.
Tuesday's dual verdict vaulted McGovern into the lead in committed delegate votes at

the Democratic National Convention.
Pennsylvania awarded Humphrey the first major presidential primary victory in his career as a White House campaigner, which dates back a dozen years.
That contest was not binding on Pennsylvania delegates, who were elected separately.
With about half the vote counted in that competition, Humphrey had 58 delegates, McGovern had 32, Muskie had 31, Wallace had 2.

In Massachusetts, the preference poll bound the delegates, and McGovern led for all 102 first-ballot convention votes.
All told, Pennsylvania will cast 182 nominating votes at the Miami Beach Fla., convention. The primary awarded 137 of them.
In Pennsylvania, 98 per cent of the 9,565 precincts had been tallied, and this was the situation:
Humphrey 473,494 or 35 per cent.

Wallace 286,905 or 21 per cent.
Muskie 274,711 or 21 per cent.
McGovern 272,746 or 20 per cent.
Jackson 39,974 or 3 per cent.
In Massachusetts, with 77 per cent of the 1,964 precincts counted, the top of the 12-candidate field stood this way:
McGovern 227,427 or 52 per cent.
Muskie 95,572 or 22 per cent.
Wallace 33,098 or 8 per cent.
Humphrey 34,715 or 8 per cent.

Rep. Shirley Chisholm of New York, who didn't campaign, was gaining 4 per cent of the Massachusetts vote. Rep. Wilbur D. Mills of Arkansas, who did, was capturing 3 per cent.
And there were scattered write-in ballots for Sen. Edward M. Kennedy, who declared once again Tuesday that he will not be a candidate for president in 1972.
President Nixon swept the day's only Republican competition, in Massachusetts.
There were no predominant

issues in Pennsylvania or Massachusetts. McGovern, Muskie and Humphrey all criticized Nixon for the renewed bombing in North Vietnam, and for the economic situation. Wallace joined them in the now-standard demand for federal tax reform.
Muskie had banked heavily on the contest for delegates in Pennsylvania, where he had the support of Gov. Milton J. Shapp and the Philadelphia party organization, to salvage some semblance of success Tuesday.

It didn't work.
On election night he conferred by telephone with supporters in California, where Democrats vote on June 6, to assure them he would still be in the contest then.
"Lest there by any doubt, I'm in this race until the last delegate vote is counted in Miami and until we beat President Nixon in November," he told them. "That's the game plan and I've never departed from it."

Demo Hopefuls Open Ohio Drive

CLEVELAND, Ohio (AP)—U.S. Sens. Hubert Humphrey and George McGovern, fresh from primary victories in Pennsylvania and Massachusetts, respectively, concentrate their campaigns for the Democratic presidential nomination on Ohio today.
They will join U.S. Sen. Henry Jackson, D-Wash., who has campaigned heavily throughout the state in recent days.
Humphrey, D-Minn., who was the party's standardbearer in 1968 only to lose to President Nixon, not only won a major victory in the Pennsylvania primary Tuesday, he received the backing of the 212,000-member United Rubber Workers Union.
His schedule today includes a rubber workers rally in Akron, international headquarters for the union.

McGovern, D-S.D., who not only won handily in Massachusetts, but finished a strong second to Humphrey in Pennsylvania, will cap his schedule for today with a meeting with the Hamilton County Democratic party leadership in Cincinnati.
"I'm not going to spend my time in Ohio talking to big names or with the state political machine," said Humphrey. "I intend to reach the people. They are the ones who decide elections."
Humphrey was to arrive at Cleveland Hopkins International Airport at noon. He scheduled a walking tour of downtown Cleveland, and was to attend a black leadership luncheon before leaving for Gary, Ind., at 3 p.m.
He is to arrive at Akron Airport at 9:40 p.m., attend the URW rally and a black leadership reception before departing in a motecade for Cleveland where he will spend the night.

Sewer Hookup Injunction Is Continued

A continuance was granted today on a restraining order sought by the firm constructing the Nicholas Square apartments to block city action to plug a sewer connection.
Judge Guy Cline, sitting on the Common Pleas bench in the absence of Judge Ammer, announced the extension on the restraining order following a lengthy and argumentative session Wednesday morning.
Additionally, Judge Cline required the construction firm, Circleville Investment Co. of Columbus, to obtain an additional \$900 for bond by Friday to add to the \$100 already received. He further ordered that before the final hearing date of May 25, the company was not to have more than ten of the apartments filled with tenants.
The judge announced that he believed these restraints would maintain the existing state of affairs between now and May 25 and eliminate injury to either party during that time.

CITY Public Utilities Director Chuck Taylor was notified of the order to stop the planned cutoff of sewage service April 17. The city's action was based on a reported default of an agreement between the construction company and utilities workers.
To date, the company has not paid the tapping fee or ever sought permission in advance of the project to connect with the city line.
The judge announced that he believed these restraints would maintain the existing state of affairs between now and May 25 and eliminate injury to either party during that time.

Actor George Sanders Dies Of Overdose

BARCELONA (AP) — "I am bored and I have already lived long enough," George Sanders wrote in a suicide note.
Then the 65-year-old actor who had played the suave cynical cad in scores of films took an overdose of sleeping pills. His body was found Tuesday on the bed in a hotel room at Castelfidardo, a seaside resort near Barcelona.
Five empty barbiturate tubes were beside the body, police said, and he left a second note in Spanish.
Sanders came to Barcelona on Monday from England, presumably on his way to his home on the island of Mallorca. Actress Zsa Zsa Gabor his second wife, said in Hollywood that his sister in London reported he had been "very depressed in recent weeks" but that he had been "happy and gay" when she put him on the plane Monday.
Sanders made his Hollywood debut in 1936 in "Lloyd's of London" and in the next 34 years played in nearly 100 movies. In all but a few he was the villain, but one that was charming, impeccably groomed, elegantly cruel, delivering acidly clever dialogue in an upper-class British accent.
He won the Academy Award for the best supporting actor in 1950 for a performance that was typical, the drama critic in "All About Eve."

Let's Try Drunk Drivers

AN EDITORIAL
The Herald believes every effort should be made to remove the habitual drinking driver from the streets and highways.
Circleville Municipal Court offers a shelter to these habitual drinking drivers that thwarts efforts of Circleville Police, Pickaway County Sheriff's Department and The Ohio Highway Patrol to keep the streets and highways safer for everyone.
This shelter is the right of trial by jury for persons charged with drunk driving. It is an undeniable right.
But these trials never take place. There are over 300 requests for trial by jury pending on the court docket and dating back to 1968. And there are many more than that, going back to 1960 when Pickaway Common Pleas Court quit accepting jury trials that by law were within the jurisdiction of Municipal Court.
There are offenders who have taken advantage of this shelter more than one time, openly flouting the law.

High Speed Chase Ends In Shooting

The theft of a pay telephone from a local laundry resulted in a high speed police chase and shooting in the east end of Circleville early this morning.
Police received a call at 5:30 a.m. that two men had taken the phone from the Duds and Suds Laundramat on East Franklin St. and fled in a blue station wagon.
Ptl. Skip Smales and Sgt. Jerry Smallwood of the city police and Deputy Sheriff Phil Brown were dispatched to the scene.
Smales spotted the station wagon, with two occupants, traveling at a high rate of speed near the intersection of Main and Mingo Sts. He gave chase and stopped the fleeing vehicle at the intersection of Main and Franklin Sts.
The driver of the vehicle got out of the car and was identified as a Charles Huston of Chillicothe.
Suddenly, Huston leaped back into the car and fled west on Franklin St. with Smales in pursuit.
The car turned south onto Mingo St., narrowly missing a grocery store on the corner. The driver lost control of the vehicle when he attempted to turn into an alley between Franklin and

Mound Sts. and ended in the yard at 218 Mingo St.
According to Smales, Huston jumped from the car and appeared to be reaching for something in his belt. Smales ordered him to halt and fired a shot into the ground and a second shot at Huston's legs.
Despite the fact that Smales believes his second shot may have hit Huston, the suspect fled down the alley.
At this point, Smallwood and Brown arrived on the scene and took the passenger in the car into custody. A search of the scene failed to turn up any trace of the elusive driver.
SMALLWOOD returned to city jail with the passenger who (Continued on Page 2)

Paris Talks To Resume

PARIS (AP) — The United States and South Vietnam have agreed to resume the Vietnam peace talks Thursday apparently with the assurance that secret negotiations with North Vietnam will also take place, highly placed sources said today.
The sources, who refused to be identified, said this prospect of "two-track" talks presumably was the explanation of the allied retreat from the position that peace talks could not resume while the North Vietnamese offensive was going on in South Vietnam.
The two-track talks would mean reopening of the semi-public plenary sessions and parallel secret contacts such as those in the past between North Vietnamese Politburo member Le Duc Tho and U.S. presidential adviser Henry Kissinger.
President Nixon had suspended the talks March 23, accusing the North Vietnamese of filibustering. He said the Americans "are ready to negotiate in public channels or in private channels."

Traffic Warning System Installed

CINCINNATI (AP) — A sophisticated system to warn motorists of traffic congestion or accidents in the road is being installed on heavily traveled Interstate 75.
City traffic engineer Tom Young said sensors imbedded in the pavement and television cameras will be used to monitor traffic.
A computer in the Riverfront Stadium area, he said, will analyze information from the monitors and relay messages to scoreboard-like signs installed along the interstate.
Young said the signs will cost about \$2.1 million.

New Data May Extend Kleindienst Hearings

WASHINGTON (AP) — The investigation of the Kleindienst-ITT case is expected to be continued for at least another day. And newly disclosed material indicates contradictions in previous statements by Nixon administration and International Telephone & Telegraph Corp. officials.
Sources close to liberal Judiciary Committee said the Democrats on the Senate had the votes to continue the investigation.
The committee meets behind closed doors today, ostensibly to vote on whether to approve, for the second time, President Nixon's nomination of Richard G. Kleindienst to be attorney general. But Sen. Edward M. Kennedy, D-Mass., planned an attempt to extend the hearings, begun on March 2, at least another day.
The committee has spent the past eight weeks investigating accusations by columnist Jack Anderson on the Justice Department's handling of an ITT antitrust case.
Anderson published in his Feb. 29 column a memo appearing to link settlement of three antitrust suits against ITT with the conglomerate's financial commitment to help San Diego attract this summer's Republican National Convention. ITT and the Nixon administration have denied any such link.

Reds Cut Main Viet Road

SAIGON (AP) — North Vietnamese forces threatened today to cut South Vietnam in half, posed a new tank challenge in Cambodia 55 miles northwest of Saigon and shot down another big U.S. transport plane at An Loc.
Six American crewmen were missing.
The U.S. Command said 24 American helicopters and 18 planes have been lost since the North Vietnamese offensive began 27 days ago, with 25 Americans killed, eight wounded and 41 missing in the air losses. Spokesmen said these figures do not include Americans killed or wounded in aircraft that have been damaged but not destroyed.
With the western highlands

province of Kontum already seriously threatened, Communist troops continued their push into coastal Binh Dinh Province 75 miles to the east and cut Highway 1, the country's main north-south road. Highway 14 north of Kontum and east-west Highway 19 leading from the coast to Pleiku were severed earlier.
Landing Zone Salem, a key South Vietnamese position on Highway 1 in coastal Phu My district, fell just before noon

after more than 12 hours of enemy attack.
Other North Vietnamese troops isolated Bong Son, another district town to the north, cut Highway 1 and began rounding up civilians to carry supplies.
In the highlands to the west, the North Vietnamese drive down Highway 14 toward Kontum City appeared stalled by the destruction of a bridge by U.S. bombers.
Enemy gunners kept up sporadic shelling of airfields at Kontum and Pleiku, 25 miles to the south. The U.S. Command reported that an Army observation helicopter was shot down near enemy-held Dak To but said there were no casualties.
The United States sent 75 B52 bombers against North Vietnamese positions in South Vietnam. They dropped nearly 2,000 tons of bombs, and more than half of the strikes were in the central region.
New fighting was reported around Saigon.
Fighting continued for the

20th day at An Loc, 60 miles north of Saigon, and other battles erupted northwest and southeast of the capital.
The U.S. Command said a four-engine C130 transport was shot down a mile southwest of An Loc while making a supply drop. The six crewmen were reported missing.
Enemy gunners poured more than 2,000 rounds into the besieged provincial capital Tuesday.
HUNTINGTON, W. Va. (AP) — City police here raided two dormitories on the Marshall University campus just before dawn this morning, roused students from their beds, confiscated more than 100 marijuana plants and made seven arrests.
Police said seven male students, aged 18 to 20, were arrested in the 5:30 a.m. raids on Twin Towers and South Hall dormitories. Twin Towers houses both male and female students.
Lt. Bill Draper of the narcotics squad said officers entered five rooms in the two dorms. They knocked on doors, he said, and if students refused to allow police to enter, officers then obtained pass keys.
Draper said more than 100 marijuana plants were found growing in a Styrofoam cooler in one of the rooms. The cooler had been partially filled with dirt in which the plants were being grown.
"I'd say they (the students) were pretty much asleep," Draper said. "They were surprised." He said more arrests are expected in the investigation.
Charges of illegal sale and possession of marijuana, illegal sale and possession of hashish and illegal possession of pills were lodged against those arrested, officers said. Besides the plants, officers also said they seized a quantity of marijuana, hashish and pills believed to be barbiturates and amphetamines.

TIFFIN, Ohio (AP) — The Seneca County sheriff's office was seeking an arsonist following the destruction of five barns and an unoccupied house on fire early today in the Tiffin-Fostoria area.
Deputies said no injuries were reported.
Four of the barns and the house were unoccupied, deputies said, but an undetermined number of sheep were killed in the fifth barn fire.
Two barns were set afire east of Tiffin about 1 a.m., deputies said. A house and barn were destroyed at 2:50 a.m. and five minutes later a state-owned barn was destroyed in the same area.
The final fire was reported at 4:50 a.m. northeast of Tiffin. Sheep and farm machinery were destroyed in that fire.

CINCINNATI (AP) — The Cincinnati Chamber of Commerce says it opposes the proposed state lottery which Ohio voters will cast ballots on in the May 2 primary.
The Chamber said Tuesday that its stand was based "on moral grounds."
The Chamber also said "the General Assembly has provided adequate revenue by the enactment of an income tax."

Fighting continued for the

20th day at An Loc, 60 miles north of Saigon, and other battles erupted northwest and southeast of the capital.

The U.S. Command said a four-engine C130 transport was shot down a mile southwest of An Loc while making a supply drop. The six crewmen were reported missing.

Enemy gunners poured more than 2,000 rounds into the besieged provincial capital Tuesday.

Drug Raid At Marshall Nets Arrests

HUNTINGTON, W. Va. (AP)—City police here raided two dormitories on the Marshall University campus just before dawn this morning, roused students from their beds, confiscated more than 100 marijuana plants and made seven arrests.

Police said seven male students, aged 18 to 20, were arrested in the 5:30 a.m. raids on Twin Towers and South Hall dormitories. Twin Towers houses both male and female students.

Lt. Bill Draper of the narcotics squad said officers entered five rooms in the two dorms. They knocked on doors, he said, and if students refused to allow police to enter, officers then obtained pass keys.

Draper said more than 100 marijuana plants were found growing in a Styrofoam cooler in one of the rooms. The cooler had been partially filled with dirt in which the plants were being grown.

"I'd say they (the students) were pretty much asleep," Draper said. "They were surprised." He said more arrests are expected in the investigation.

Charges of illegal sale and possession of marijuana, illegal sale and possession of hashish and illegal possession of pills were lodged against those arrested, officers said. Besides the plants, officers also said they seized a quantity of marijuana, hashish and pills believed to be barbiturates and amphetamines.

Kiwanians Hear Canadian Speaker, Elect Officers

Jerry Oucoin, a student at Ohio State University from Nova Scotia, Canada, presented a program for Circleville Kiwanians Monday night at the Mecca Restaurant that dealt primarily with comparison of basic living conditions between the United States and Canada.

In other business, new officers for the current year were elected.

David B. Gillespie was named club president; Fred Bower was elected vice president and Maynard Burns was named treasurer.

Mike Clark, Dick Wylie, Ray Cundiff and David Allard were chosen as members of the Board of Directors.

President Doyle Painter congratulated Kiwanian Bob Liggett for being named as one of the five outstanding men in Ohio. Tom Spring, son of Kiwanian Stan Spring, was also honored for being selected Lieutenant Governor of Division 10-S for Key Clubs.

Bill Fischer, chairman of the Special Project Committee, announced that the club would sponsor a Flea Market June 10 and 11 at the Pickaway County Fairgrounds.

Painter also announced that the next Board of Directors meeting will be held at the home of Fred Bower, 528 N. Court St.

Two Men Charged With DWI In Municipal Court Tuesday

Two out-of-county men pleaded guilty to driving while under the influence of alcohol Tuesday in Municipal Court.

Ralph Maynard, 45, Feds Creek, Ky., was charged with the offense Tuesday morning by an Ohio State Patrolman, who noted on the affidavit that Maynard was driving left of center on two occasions and had driven off the roadway. He tested .20 on the breathalyzer.

Judge Sterling Lamb fined him \$150 and costs, sentenced him to 30 days in the Pickaway County Jail and suspended his driving privileges for six months.

Foster Davis, Columbus, was charged with driving while intoxicated on an affidavit prepared by the Sheriff's Department that noted he refused to take the breathalyzer test because he "had been drunk for a week."

Lamb fined him \$150 and costs, sentenced him to 30 days in the Pickaway County Jail and suspended his driving rights for one year.

He was also fined \$50 and costs and three days in jail for

driving without an operator's license.

Robert Nesser, 24, Mt. Sterling, was fined \$50 and costs for reckless operation and \$50 and costs for leaving the scene of an accident by Lamb, who has allowed Nesser 60 days in which to pay both fines.

Virginia Sherman, 37, Route 1, Amanda, was fined \$15 and costs for failing to yield the right of way.

Steven A. Newman, 19, 379 Weldon Ave., was fined \$15 and costs for driving an unsafe vehicle.

Constance A. Graham, 30, Route 1, Ashville, was fined \$15 and costs for failing to yield at a stop sign.

Albert W. Koonce, 49, 1580 Quinby Road, was fined \$15 and costs for failing to yield at a stop sign.

John E. Jeffries Sr., 52, 1134 McGraw Road, forfeited \$19 bond for speeding 45 miles per hour in a 35 zone.

Charles A. Saxour, Route 3, Chillicothe, forfeited a \$24 bond for intoxication.

William D. Fowler, 18, Route 2, forfeited a \$19 bond for speeding 45 miles per hour in a 35 zone.

Lana K. Alderman, 21, 1945 Arapaho Drive, forfeited \$24 bond for speeding 75 miles per hour in a 60 zone.

William Clark Jr., 40, 1115 McGraw Road, forfeited \$19 bond for speeding 70 miles per hour in a 60 zone.

Robert L. Weaver, 29, Route 1, New Holland, forfeited a \$19 AAA bond for speeding 61 miles per hour in a 50 zone.

Ex-Postmaster General Arthur Summerfield Dies

WEST PALM BEACH, Fla. (AP) — Arthur E. Summerfield, former postmaster general of the United States and a chairman of the Republican National Committee, died today. He was 73.

Summerfield, a long-time power in national politics and those of his home state of Michigan, served as postmaster general under former President Dwight D. Eisenhower from 1952-1960. He held the GOP post in 1952 and also managed Eisenhower's presidential campaign.

Death occurred nearly two weeks after Summerfield entered Good Samaritan Hospital while vacationing here. Hospital officials said he was suffering from double pneumonia. Summerfield directed Eisenhower's 1952 campaign, at the same time healing the wounds inflicted on his chief rival for the nomination, Sen. Robert A. Taft of Ohio. With his election, Eisenhower named Summerfield postmaster general.

Brenda Mills To Represent OSU At Clinic

Miss Brenda June Mills, daughter of Mr. and Mrs. Robert Mills, Route 4, has been selected to represent Ohio State University College of Dentistry in the American Dental Assn.'s Student Table Clinic Program.

The program is designed and sponsored by the American Dental Association as an integral part of the continuing education of the profession.

A table clinic is a table top demonstration of a technique or procedure concerned with some phase of research diagnosis or treatment as related to the profession of dentistry.

Each dental school in the country is requested to select its outstanding student clinician, who is then invited to present his or her clinic at the National ADA Convention. The student receives an expense paid trip to the convention city this year, San Francisco, Calif., Oct. 29-Nov. 2.

Miss Mills is a 1969 graduate of Logan Elm High School and a freshman in the Ohio State University College of Dentistry. She is the first freshman and the first girl to represent OSU in the Table Clinic Program.

Her clinic, "Taking the Upper Hand: Dealing Successfully with Children," is concerned with the techniques used by the dentist in introducing children to the profession and with handling their anxieties and particular personality types.

Miss Mills has been re-elected secretary of her class, which will graduate in December, 1974. She is affiliated with the Mu Mu Chapter of Delta Sigma Delta, a dental fraternity.

Friends may call at the funeral home beginning 2 p.m. Thursday.

Federal Grants For TV Awarded — WASHINGTON (AP) — The Ohio Education Television Network Commission received nearly \$500,000 in federal grants Tuesday to establish two new noncommercial television outlets.

Of the total, \$358,370 will be used to activate Channel 45 in Alliance and \$141,200 to open Channel 44 in Cambridge.

The grants, authorized by the Public Broadcasting Act, have financed 288 public educational broadcasting projects at a cost of \$60.6 million since 1963.

The cuts were ordered after an Ohio Supreme Court decision last month that prohibits pay raises for municipal court judges during their terms of office.

The decreases — amounting to \$5,000 per year — will affect Judges Clarence Denning, Rupert Doan and Paul Gilday. Each will have his pay cut to the 1968 level of \$18,000 from the present \$23,000.

Apollo 16 News Conference Held 100,000 Miles Away

SPACE CENTER, Houston (AP) — The Apollo 16 astronauts hold a news conference from 100,000 miles in space today to report first-hand on their moon exploration.

The late afternoon conference is the only major item for the astronauts on their last full day in space before they land on Thursday.

In the South Pacific, where the carrier Ticonderoga waits to recover the astronauts, the weather forecast for the 2:44 p.m. splashdown time Thursday calls for unlimited visibility except for a few thunderheads, seas of 1 to 3 feet, light winds and a temperature of 84 degrees.

John W. Young, Charles M. Duke Jr. and Thomas K. Mattingly II devote most of the day to monitoring systems, taking stellar navigation readings and resting for their homecoming at the end of 11 days away from earth.

During the half hour news conference, a capsule communicator will read to them questions prepared by newsmen covering the flight from the Manned Spacecraft Center. It will be televised to Mission Control.

Young and Duke were to be questioned about their report Monday that they did not think they found any volcanic rock "to speak of." That had been the main goal as they conducted man's first exploration in the moon's highlands, which constitute nearly 80 per cent of the surface.

But Mission Control geologists who watched on television and listened to the moon walkers' descriptions are certain they are bringing back volcanic evidence in the 245 pounds of rocks and soil they collected.

The consensus here is that volcanic processes during the early history of the moon took

a different form than those on earth and Young and Duke thus were unable to recognize rocks as volcanic.

On Monday, Mattingly took a deep space walk 199,000 miles from home. He eased through the open hatch of the command ship Casper and moved on handrails 15 feet to the rear of the spacecraft to recover more than a mile of film from two cameras.

The cameras charted a large area of the moon from lunar orbit including a section of the backside which is hidden from earth's view.

"Oh, man! The old moon's out there," Mattingly said as he maneuvered and floated outside in the silent, weightless world. "Boy is it black." The walk was necessary because the camera bay is jettisoned before landing and does not return to earth with the astronauts.

TV Board Of Education Hires Teaching Staff

At their Monday evening session, Teays Valley Board of Education considered employment of teachers and approval of the list of graduates from the Class of 1972.

Resignations were accepted from Mrs. Sheri Hawkins, junior high English; Miss Marie Wilson, Scioto first grade; Willard Ankrom, junior high special education; Mrs. Cherry Crank, Ashville special education; Miss Ruthanne Seibel, high school English; Mrs. Karen Handshoe, Walnut fourth grade and Winfield Johnson, Walnut fifth grade.

Contract renewals were offered to 37 teachers. In the high school area, re-employment was offered: Jack Adkins, industrial arts; Roger Campbell, business education; Helen Cookson, business education; Melody Johnson, speech and English; William Lewis, phys. ed. and health; Betty Midkiff, art; Miriam Morrison, English; Ray Noecker, vocational agriculture; Ruth Tottle, high school home economics; Mary Bendycki, Spanish; Phillip Forsythe, social studies; Frances Labuda, guidance; John Karg, science; Forrest Webster, special education; Arturs Zageris, mathematics; Judith Roush, home economics.

JUNIOR high teachers whose contracts were renewed include: Charles Baxter, phys. ed. and science; Delmer Dodrill, science; Robert Duffy, social studies; Mary McCourt, phys. ed. and health; Jane Sheraw, English; Elaine Winter, home economics.

On the elementary level were: Virginia Bartholomew, Walnut 2nd; Joyce Dresbach, Walnut 1st; Richard Groff, Ashville 6th; Donna Harmount, Walnut remedial reading; Jean Schmunk, Scioto 2nd; Nancy Schollenberger, Walnut 4th; Barbara Kibby, Scioto music; Pamela Buettner, Ashville 2nd; Karen Davis, Ashville 6th; Linda Doles, Scioto 4th; Sharon Downard, Walnut 5th; Geraldine Hedges, Walnut 3rd; Barbara Pabst, Walnut 1st; Christina Rae, Scioto 2nd; Maureen Neff, Ashville 5th.

Supplemental contracts were also awarded to some teachers employed in the district.

The board hired Sandra Tosca as second grade teacher for Ashville Elementary under a one-year contract. She did her student teaching at Ashville during the winter term.

An additional two weeks employment was authorized for Principal Bill Toney and Miss Vivian Sheets as secretary. The extra time is needed for necessary scheduling processing under the extended day operation for the high school.

Miss Donna Berry was given summer employment at an hourly rate to assist in processing of Title II materials and general clerical assistance in federal program areas as she has worked for the past three years.

It was necessary for the board to notify teachers who hold temporary certification that they must legally be withheld from employment until after Aug. 1 or until such time as full certification requirements are met. Four teachers currently holding supplemental duty positions were notified that at the moment their posts are undecided for the coming school year.

Two teachers who assumed positions late in the school year were advised that jobs for them were not presently available. Reasons for the action are that

other commitments had previously been made for the post and one teacher is returning from an authorized leave of absence.

At present, the time extensions of the school day operation are projected to remain the same as this year under the extended day program, though some adjustments are being made internally in the curriculum offerings. The board authorized the administration to submit plans to the State Department of Education for continued operation under the extended day program.

From June 5 to July 27, the high school gymnasium and weight room will be used to conduct a physical fitness program four nights a week with the supervision of the coaching staff.

Phil Everett was given permission to attend the Ohio Association of Secondary School Principals' Summer Workshop in Columbus June 27-29.

Other matters of discussion bought before the board included a delegation of bus drivers who discussed use of two-way radios on buses; guidelines for instrumental music teacher giving private lessons in school facilities; the forthcoming levy and bond issue planning.

A police check revealed that Ballard was a 25-year-old parolee by the name of Marvin Franklin Moss Sr.

Moss was incarcerated in city jail and appeared in Municipal Court this morning. He waived a preliminary hearing on charges of grand theft and was bound over to the grand jury on \$6,000 bond.

Black GI Sues Army For Release

SAN FRANCISCO (AP) — A black enlisted man has sued the U.S. Army, charging the Army's refusal to grant him a discharge based on his susceptibility to sickle cell anemia unnecessarily endangered his life.

Spec. 4. James A. Powell, 28, of Cleveland, Ohio, said at a news conference Tuesday the Army's decision was "at best discrimination and at worst genocide against the black people of this country."

Sickle cell anemia is a blood cell disorder which afflicts primarily blacks.

Powell, who does not have the disease, says he does have its "trait." His suit contends military life could cause him "death or serious bodily harm."

The suit asks for Powell's discharge and requests the Army Surgeon General to include the trait among medical defects which qualify military personnel for discharge.

The disease is characterized by a shortage of oxygen to the blood followed by changes in the shape and function of blood cells. It can cause death.

Powell said his trait was diagnosed at Ft. Carson, Colo.

McGovern, HHH \$1 Million In Debt

WASHINGTON (AP) — Sens. George McGovern and Hubert H. Humphrey had a combined campaign debt of nearly \$1 million going into the Massachusetts and Pennsylvania Democratic presidential primaries Tuesday.

But two other leading rivals for the party's nomination, Sens. Henry J. Jackson and Edmund S. Muskie, were solidly in the black.

Campaign-spending reports and political-committee registrations filed with the General Accounting Office under the new federal elections law give a reasonably clear, but by no means complete, picture of only these four candidates.

Board Rules On Permit Requirements

The Pickaway County Board of Health adopted a resolution requiring receipt of soil reports from Soil Resources Specialists of the Department of Natural Resources Land and Soils, or from the Pickaway Soil and Water Conservation District.

The resolution also requires on-site inspection made by a representative of the Department of Health prior to issuing sewage permits.

The resolution will be effective May 1.

The Board of Health passed the resolution Tuesday night in regular session.

DON Archer of the Soil Conservation Service explained soil limitation and usage to the board prior to its adoption of the resolution. The board has been concerned with the failure of sewage systems installed in poorly suited soil types.

They also indicated their full support of the enforcement of Pickaway County and State Food Service Operation Laws by sanitarians R. Thornburn Blaney and Hugh Barnhill.

The board noted their concern over the sanitary conditions of some Pickaway County restaurants in endorsing the enforcement.

Board members aired their concern about sub-standard housing and old abandoned buildings.

They elected to enforce Section 3707.01 of the Ohio Revised Code which requires that the Board of Health shall abate and remove all nuisances within its jurisdiction.

It may, by order, compel the owners, agents, assignees, occupants or tenants of any lot, property, building or structure to abate or remove the property and prosecute them for neglect or refusal to obey their order.

THE board also interviewed and employed Mrs. Janet Schwamberger, Route 1, Stoutsville, as a part-time Health nurse for the department.

Board members are Mrs. William Hildenbrand, president; Dr. Paul Fenstermaker, vice president; Mrs. Richard L. Christensen; Mr. Norman Godden and Mr. Charles McCray.

OHIO YOUTHS Mental Cases?

CLEVELAND, Ohio (AP) — About 175,000 Ohio youngsters need mental health treatment, says Dr. Kenneth D. Gaver, Ohio director of mental hygiene.

Gaver said in Cleveland Tuesday that 25,000 children have such severe emotional or mental disturbances they need institutional care.

Another 25,000 to 50,000 youngsters need "massive intervention" just short of hospitalization and another 100,000 need some kind of mental health services, he said.

Brenda Mills To Represent OSU At Clinic

Miss Brenda June Mills, daughter of Mr. and Mrs. Robert Mills, Route 4, has been selected to represent Ohio State University College of Dentistry in the American Dental Assn.'s Student Table Clinic Program.

The program is designed and sponsored by the American Dental Association as an integral part of the continuing education of the profession.

A table clinic is a table top demonstration of a technique or procedure concerned with some phase of research diagnosis or treatment as related to the profession of dentistry.

Each dental school in the country is requested to select its outstanding student clinician, who is then invited to present his or her clinic at the National ADA Convention. The student receives an expense paid trip to the convention city this year, San Francisco, Calif., Oct. 29-Nov. 2.

Miss Mills is a 1969 graduate of Logan Elm High School and a freshman in the Ohio State University College of Dentistry. She is the first freshman and the first girl to represent OSU in the Table Clinic Program.

Her clinic, "Taking the Upper Hand: Dealing Successfully with Children," is concerned with the techniques used by the dentist in introducing children to the profession and with handling their anxieties and particular personality types.

Miss Mills has been re-elected secretary of her class, which will graduate in December, 1974. She is affiliated with the Mu Mu Chapter of Delta Sigma Delta, a dental fraternity.

Federal Grants For TV Awarded

WASHINGTON (AP) — The Ohio Education Television Network Commission received nearly \$500,000 in federal grants Tuesday to establish two new noncommercial television outlets.

Of the total, \$358,370 will be used to activate Channel 45 in Alliance and \$141,200 to open Channel 44 in Cambridge.

The grants, authorized by the Public Broadcasting Act, have financed 288 public educational broadcasting projects at a cost of \$60.6 million since 1963.

Apollo 16 News Conference Held 100,000 Miles Away

SPACE CENTER, Houston (AP) — The Apollo 16 astronauts hold a news conference from 100,000 miles in space today to report first-hand on their moon exploration.

The late afternoon conference is the only major item for the astronauts on their last full day in space before they land on Thursday.

In the South Pacific, where the carrier Ticonderoga waits to recover the astronauts, the weather forecast for the 2:44 p.m. splashdown time Thursday calls for unlimited visibility except for a few thunderheads, seas of 1 to 3 feet, light winds and a temperature of 84 degrees.

John W. Young, Charles M. Duke Jr. and Thomas K. Mattingly II devote most of the day to monitoring systems, taking stellar navigation readings and resting for their homecoming at the end of 11 days away from earth.

During the half hour news conference, a capsule communicator will read to them questions prepared by newsmen covering the flight from the Manned Spacecraft Center. It will be televised to Mission Control.

Young and Duke were to be questioned about their report Monday that they did not think they found any volcanic rock "to speak of." That had been the main goal as they conducted man's first exploration in the moon's highlands, which constitute nearly 80 per cent of the surface.

But Mission Control geologists who watched on television and listened to the moon walkers' descriptions are certain they are bringing back volcanic evidence in the 245 pounds of rocks and soil they collected.

The consensus here is that volcanic processes during the early history of the moon took a different form than those on earth and Young and Duke thus were unable to recognize rocks as volcanic.

On Monday, Mattingly took a deep space walk 199,000 miles from home. He eased through the open hatch of the command ship Casper and moved on handrails 15 feet to the rear of the spacecraft to recover more than a mile of film from two cameras.

The cameras charted a large area of the moon from lunar orbit including a section of the backside which is hidden from earth's view.

"Oh, man! The old moon's out there," Mattingly said as he maneuvered and floated outside in the silent, weightless world. "Boy is it black." The walk was necessary because the camera bay is jettisoned before landing and does not return to earth with the astronauts.

At their Monday evening session, Teays Valley Board of Education considered employment of teachers and approval of the list of graduates from the Class of 1972.

Resignations were accepted from Mrs. Sheri Hawkins, junior high English; Miss Marie Wilson, Scioto first grade; Willard Ankrom, junior high special education; Mrs. Cherry Crank, Ashville special education; Miss Ruthanne Seibel, high school English; Mrs. Karen Handshoe, Walnut fourth grade and Winfield Johnson, Walnut fifth grade.

Contract renewals were offered to 37 teachers. In the high school area, re-employment was offered: Jack Adkins, industrial arts; Roger Campbell, business education; Helen Cookson, business education; Melody Johnson, speech and English; William Lewis, phys. ed. and health; Betty Midkiff, art; Miriam Morrison, English; Ray Noecker, vocational agriculture; Ruth Tootle, high school home economics; Mary Bendycki, Spanish; Phillip Forsythe, social studies; Frances Labuda, guidance; John Karg, science; Forrest Webster, special education; Arturs Zageris, mathematics; Judith Roush, home economics.

JUNIOR high teachers whose contracts were renewed include: Charles Baxter, phys. ed. and science; Delmer Dodrill, science; Robert Duffy, social studies; Mary McCourt, phys. ed. and health; Jane Sheraw, English; Elaine Winter, home economics.

On the elementary level were: Virginia Bartholomew, Walnut 2nd; Joyce Dresbach, Walnut 1st; Richard Groff, Ashville 6th; Donna Harmount, Walnut remedial reading; Jean Schumuck, Scioto 2nd; Nancy Schollenberger, Walnut 4th; Barbara Kibby, Scioto music;

Pamela Buettner, Ashville 2nd; Karen Davis, Ashville 6th; Linda Doles, Scioto 4th; Sharon Downard, Walnut 5th; Geraldine Hedges, Walnut 3rd; Barbara Pabst, Walnut 1st; Christina Rae, Scioto 2nd; Maureen Neff, Ashville 5th.

Supplemental contracts were also awarded to some teachers employed in the district.

The board hired Sandra Tosca as second grade teacher for Ashville Elementary under a one-year contract. She did her student teaching at Ashville during the winter term.

An additional two weeks employment was authorized for Principal Bill Toney and Miss Vivian Sheets as secretary. The extra time is needed for necessary scheduling processing under the extended day operation for the high school.

Miss Donna Berry was given summer employment at an hourly rate to assist in processing of Title II materials and general clerical assistance in federal program areas as she has worked for the past three years.

ROBERT Hoover was employed to instruct the summer driver education course from June 5 through July 28.

It was necessary for the board to notify teachers who hold temporary certification that they must legally be withheld from employment until after Aug. 1 or until such time as full certification requirements are met. Four teachers currently holding supplemental duty positions were notified that at the moment their posts are undecided for the coming school year.

Two teachers who assumed positions late in the school year were advised that jobs for them were not presently available. Reasons for the action are that

Stock List Near Even

NEW YORK (AP) — Prices were weak on today's stock market but showed signs of moderating Tuesday's abrupt plunge. Trading was fairly active.

Declining issues were far ahead of advances in the early going on the New York Stock Exchange, but the gainers were narrowing the gap to about 7 to 4.

Blue-chip issues were holding their ground better than some of the glamour stocks. The noon Dow Jones average of 50 industrials was up .83 to 947.3. In earlier trading it had been off more than 3 points.

Most stock categories were mixed, with rubber issues showing weakness.

3 Judges Lose Pay Increases

CINCINNATI (AP) — Pay cuts for three Hamilton County Municipal Court judges are scheduled to take effect Sunday, local officials say.

The cuts were ordered after an Ohio Supreme Court decision last month that prohibits pay raises for municipal court judges during their terms of office.

The decreases — amounting to \$5,000 per year — will affect Judges Clarence Denning, Rupert Doan and Paul Gilday. Each will have his pay cut to the 1968 level of \$18,000 from the present \$23,000.

During the half hour news conference, a capsule communicator will read to them questions prepared by newsmen covering the flight from the Manned Spacecraft Center. It will be televised to Mission Control.

Checking Money Flow

Banks and other financial institutions, already inundated by the voluminous record-keeping involved in checking account transactions, will find their task more complicated after July 1. From that date on, they will be required to keep special records of all transactions in excess of \$10,000, and report them to the Treasury Department.

The new regulations have been ordered by the Treasury to facilitate investigations of income tax evasion and other illegal exchanges. Banks will be required to keep microfilmed records for five years of checks and money

orders, as well as transfers to foreign accounts.

Individuals who take more than \$5,000 out of the country also will be required to report the amount to the Bureau of Customs. The new regulations are the first serious effort to trace funds transferred to foreign accounts. The Treasury suspects this is a major route profits from illegal transactions have been taking to avoid detection.

All this will add up to a heavy burden for banks, and some of it may be passed on to customers in the form of fees. Assuming the Treasury's suspicions are correct, the cost is another example of a tax placed on the public by crime.

Facing NATO Facts

Proposals for fundamental changes in the Atlantic alliance would be welcomed by the United States, some unnamed government officials in Washington are quoted as saying. What's more, they indicate that the United States may have some suggestions for changes, but is not ready to divulge them.

If this is true, it indicates that Washington is facing facts of international life. The NATO alliance is in growing disarray. Changes in the relationships between Washington and

European allies appear inevitable.

Clearly the pattern is changing. Western Europe's postwar ties to the United States have been loosening for years. And NATO's focus, once limited to Europe and the Soviet threat, is now widening to take in national interests of member nations over much of the globe.

Much as Washington might like to preserve NATO in its present form, it is facing the fact that it may have to accept changes if it is to avoid further disarray in NATO and harm to its fundamental aims.

The Business World

By JOHN CUNIFF

NEW YORK (AP) — Was that bulge in the inflation rate that appeared in the first three months of the year a temporary thing or permanent?

The fact is that the rate of inflation, after falling to 1.7 per cent on an annual basis late in 1971, jumped all the way up to 6.2 per cent in the January-February-March quarter.

At the very same time came announcements of glittering corporate profits. Putting two and two together, many Americans became cynical about price controls and the battle

with inflation.

The administration tried to allay the fear by claiming the jump was temporary, that it was to be expected, and that it would be reduced by summer. But Americans no longer believe promises. They want evidence and action.

And suddenly the evidence and the action now comes from the Price Commission, an agency of government that many Americans thought viewed its role as paper-shuffling and admonishing.

Now the commission has evi-

dence that enables it to demand that large companies reduce their prices and even rebate to customers the amount of past overcharges.

Now those claims of defeating inflation appear far more credible than a few days ago. It is now possible to believe the bulge was temporary.

It cannot be overlooked, however, that it wasn't only the ordinary American who had disbelieved. The facts show that while business knew the rules for pricing it also ignored them and intended to get away with doing so.

The rule is this: Prices cannot be raised if in so doing the percentage of profits to sales exceeds the average of the best two of the past three years. That still leaves companies free to raise prices if their costs rise.

Nevertheless, C. Jackson Grayson, chairman of the commission, observed that about 10 per cent of companies filing reports for the very first quarter after the price freeze violated the new rules.

All one can assume is that their own accounting procedures fed them inaccurate information or that they didn't take seriously the intent and power of the commission.

Now that they know the intent and power, it is quite likely that far fewer companies will attempt to defy the new rules of the marketplace. A different psychological setting has been established.

It is a landmark, all right, and more. It is quite likely a big step in a new and permanent relationship between government and business.

Watchdog, partner, dictator—whatever it is called—government seems to be there to stay.

Dear Abby: Headache? Don't Call Brain Surgeon

Views On TV-Radio

By CYNTHIA LOWRY
AP Television-Radio Writer
NEW YORK (AP) — Prime-time television—with networks, film studios, producers, creators, writers and scores of others in on the finished product—is not the happiest hunting ground for the rugged individualist.

Jack Paar, if nothing else, is a distinct personality. His "African Diary" on NBC Tuesday night was, for better or worse, a very personal program.

As an hour of television, however, it racked up as Paar's least effective production. The quality of the photography and sound was fuzzy and unimaginative. Jack rushed through the sequences, particularly the interviews.

A number of his elaborate sight gags fizzled, but he used them anyway. In one he staged a black-tie formal dinner party in a tent in the middle of the bush which was scheduled to be invaded by a wild donkey. It looked obviously staged—the diners were seated on three sides of a table so the camera had a clear shot of everybody. Worst of all, the donkey was the tamest guest in the tent.

Jack's interest in Joy Adamson and the "Born Free" lions was further explored, but Jack's interview with Mrs. Adamson was so hurried and jumbled it was hard to understand either of them.

In spite of everything, Paar did wheedle a good quote when he asked Mrs. Adamson what she was afraid of.

"Loneliness," she replied and Paar wisely quit while he was ahead. And in some moments Paar's delicious sense of the ridiculous came through, including his throw-away report about the English lady in Africa who found she needed a permit from the local department of agriculture to get her shipment of shoe trees from London.

The program was not, even by Paar's standards, professional. But at a time when most television comes off Hollywood production lines, it probably is important to have around some people such as Paar who are using the medium for personal expression.

Charges Dismissed Against 3 Youths

WOLFFORD, Fla. (AP) — A judge has dismissed charges against three Miami youths accused of moving lawns without permits. He also ordered all records of their arrests destroyed.

Municipal Judge George Plafie accepted a defense request Monday to dismiss the charges against Pershing "Kip" Williams Jr., Rick Sigler and Danny Walters, all 17.

The were arrested April 12 while going door to door and offering to mow lawns to pick up some pocket money. They told an officer they had not bought city identification permits.

Man Uses Billboards To Attract Girl

SAN FRANCISCO (AP) — Bruce Britton met a "beautiful redhead" while bicycling in Golden Gate Park a few weeks ago, but he lost her phone number and didn't know her last name.

So he plastered posters on fire alarms, mail boxes and telephone poles at a busy financial district intersection urging the girl to call him.

Britton said Monday his messages, addressed to "Anne, with red hair from El Paso, Tex.," brought him a phone call from the girl.

Lawyers Fight No-Fault Insurance

By JUDY VAN SLYKE
Associated Press Writer
No-fault insurance plans, already law in seven states and being considered in 27 state legislatures from California to Rhode Island, are facing stiff opposition from a well-organized and well-financed lawyers' lobby.

In some states, the lawyers are being aided by insurance companies and civil rights groups.

Fourteen states defeated no-fault insurance proposals in 1972 legislative sessions, and lawyers specializing in personal injury litigation, especially the American Trial Lawyers Association, are trying to block passage of no-fault legislation in 16 of the 27 states considering such bills, an Associated Press survey showed.

The lawyers' tactics differ from state to state, but Leonard Ring, a spokesman for the American Trial Lawyers Association, said the objection is usually on the same grounds that most no-fault proposals "either eliminate or strictly limit the right of people to recover for disability or pain and suffering that don't have a fixed monetary value."

Ring said the limitations affect both those victims who try to settle claims out of court and those who file suit to recover for damages.

Although no-fault plans vary, the concept is similar "reimbursement for auto accident victims from their own insurance companies for bodily injury and lost wages regardless

of who was at fault in the accident.

In Illinois, the trial lawyers group spent \$100,000 in an unsuccessful lobbying effort to have the bill killed.

But after the no-fault proposal was signed into law Sept. 2, 1971, the Illinois Trial Lawyers Association filed suit.

The State Supreme Court recently declared the law unconstitutional on the grounds it discriminates against certain groups of accident victims.

The Hawaii Trial Lawyers Association, an affiliate of the national group, waged a campaign of television and newspaper advertising that some lawmakers say influenced the legislature to table no-fault measures in committee.

The Colorado Farm Bureau and a group of independent insurers lobbied heavily against no-fault in the current session of the state's General Assembly, where a bill was killed and further study ordered by lawmakers.

In Wisconsin, several insurance groups, including the Independent Insurance Agents of Wisconsin and the National Association of Independent Insurers, opposed six no-fault plans introduced in the legislature. Stanley Du Rose, state insurance commissioner, said many of the opponents "see no-fault insurance as an inevitable development in the future. What they object to is not so much the concept as the specifics."

Property Tax Suit Planned

COLUMBUS, Ohio (AP) — The Ohio Farmers Union announced Tuesday it plans to file suit in federal court in Toledo challenging the constitutionality of the state's real property tax.

Union Chairman Charles Nash of Leipsic called the planned action on behalf of all "the overburdened property taxpayers" in Ohio "long overdue."

"The time has come for action instead of words about high property taxes. The time has come for tax justice instead of tax in equity for family farmers, the working family, and the small businessman of Ohio," Nash said, and added:

"The family farmer, in particular, has been forgotten for too long. For years he has been hit the hardest with high real

estate taxes. His net income has been dropping, while his real estate taxes have been soaring higher and higher. He can stand it no longer. He is being forced off the land. High real estate taxes have been a contributing factor."

2 Candidates Go After Votes Across Indiana

INDIANAPOLIS (AP) — The two active candidates for Tuesday's Indiana Democratic presidential primary plan to crisscross the state in their search for votes.

Sen. Hubert Humphrey of Minnesota and Alabama Gov. George Wallace are entered in the primary, along with Sen. Edmund Muskie of Maine, who has said he would not campaign in the state.

Humphrey was scheduled in East Chicago this afternoon and early evening and in Fort Wayne Friday afternoon.

Wallace's campaign schedule included a press conference today at Indianapolis. He plans to be out of Indiana campaigning in Tennessee and North Carolina until Saturday.

Stephen A. Nordeck City Councilman

PARIS (AP) — Stephen A. Nordeck took his oath of office as a Manhattan Beach, Calif., city councilman today at the U.S. Embassy.

Nordeck is in Paris on a business trip and learned over the weekend that he had won the City Council seat. He was advised to take his oath quickly in order to secure his new post, so he arranged with the U.S. consul to swear him in.

Nordeck, an official of the North American Rockwell Co., plans to return to Manhattan Beach next Tuesday.

Bing Crosby Oscar Replaced By Mouse

SPOKANE, Wash. (AP) — Bing Crosby's Oscar is missing. Police said a three-inch high statue of Mickey Mouse was left in place of the Oscar, which was stolen over the weekend from the Crosby Library on the Gonzaga University campus.

Police said the theft appeared to be a prank since none of the other Crosby memorabilia in display cases, including the crooner's gold phonograph records, was disturbed.

Dear Abby: By Abigail Van Buren

Headache? Don't Call Brain Surgeon

DEAR ABBY: My husband is a CPA and every year around income tax time he is deluged with telephone calls from friends who want to ask him questions about their income tax returns.

My husband is an auditor.

and I doubt that he has filled out an income tax return since college.

Last night a casual acquaintance called with a bookkeeping problem so simple that even I could solve it. I wonder if these same people call a brain surgeon everytime they have a headache.

MRS. T.D.S.
DEAR MRS. S.: Probably not. But I'm sure if they thought a brain surgeon could relieve their headaches, they wouldn't hesitate to call him.

DEAR ABBY: I am a 17-year-old senior in high school and will be graduating soon. I am now looking for a job, but wherever I apply, I am told "You don't have enough experience."

Abby, how can a person get experience if nobody gives him a job?

I am willing to work hard, but unless somebody hires me, how can I show him what I can do?

Please print this, Abby. I have been steaming about this for a long time.

DISCOURAGED
DEAR DISCOURAGED: Every experienced worker was once inexperienced. Employers know this but the applicant who shows the most persistence is the one who gets the job. (P.S. Let it be known that you will take anything in order to prove your sincerity.)

DEAR ABBY: The letter about "perfectionists" inspired me to take my pen in hand. (I can't believe I am actually writing a letter to "Dear Abby.")

I also believe in neatness and orderliness, but it can be overdone. I was raised in a home with two parents who were both "perfectionists."

We had a large closet with everything hung just so. My children were not allowed to go into it. We asked for our clothes and they were given to us.

A wicker rocker gives me chills to this day. I sat in one for hours on end with a book. (The only toy which I was permitted because it didn't make a mess.) We weren't allowed to sit in the living room except on very special occasions, and then only on certain chairs.

We ate in a restaurant for years so our kitchen stove and sink were kept spotless. We washed in the big copper laundry tub in the basement in order to keep the bathroom clean.

Mother is up in years now, but she is still a perfectionist. All her furniture looks like new.

I escaped when I married many years ago, but I still appreciate the simple pleasures of bathing in a bathtub and using ALL the house.

MEMORIES
DEAR MEMORIES: Your "memories" make interesting reading. Thank you for sharing them.

DEAR ABBY: Regarding that letter from knitters and needleworkers: Do you really want to know why women knit in company?

It's because it gives them something to think about while they are talking. Regards,
GEORGE IN BREMERTON

DEAR GEORGE: That's a pretty "broad" statement. (Also unjust and inaccurate.)

What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 69700, Los Angeles, Cal. 90069. For a personal reply enclose stamped, addressed envelope.

Marathon Announces Net Income Down

FINDLAY, Ohio (AP) — Marathon Oil Co. President J. C. Donnell announced Tuesday that first quarter net income for the Findlay-based firm dropped nearly 29 per cent from similar figures in 1971.

Donnell said earnings for the quarter were \$16,152,000 or 4 cents a share, compared with \$22,615,000 or 75 cents a share the previous year.

Donnell blamed the drop in earnings despite record revenue levels on a continuing weakness in produce prices.

Steel Companies Show Cash Drop

PITTSBURGH (AP) — The nation's two leading steel firms—U.S. Steel and Bethlehem—have reported sharp declines in earnings for the first three months of this year.

However, officials of both firms said business was showing signs of improvement just at the end of the quarter, which followed one of the worst years in steel industry history. They predicted "substantial improvement" during the balance of the year.

Bethlehem fared better during the first quarter than did its chief competitor, first-ranked U.S. Steel.

W. Va. Strip Mine Law Under Attack

CHARLESTON, W. Va. (AP)—Nine surface mining companies in West Virginia have asked the state Supreme Court to overturn the 1971 strip mining law, contending it is unconstitutional.

In a suit filed Tuesday against the state's Reclamation Commission, the companies set forth four ways in which they contend the law and the regulations implementing it violate the state and federal constitutions.

The petition contends that: —Some provisions of the law, such as the prohibition against surface mining within 100 feet of public property, violate federal and state constitutional prohibitions against taking or damaging private property for a public purpose without compensation to the owners.

KSU Officer Is Cleared Of Charges

KENT, Ohio (AP) — Reinhold Mohr, 25, an undercover agent for the Kent State University police, has been cleared of charges of possessing illegal weapons.

Mohr was arrested and later released in a series of events that read like a television script.

Kent police picked him up Monday night in a parking lot near the campus after receiving a tip from officers of the Kent State Veterans Against the War. Police said Mohr had a Russian-made machine gun and a Chinese-made rocket-propelled grenade launcher.

The weapons were wrapped in a beach towel, police said.

The tip came from Ken Johnson and Alan Morris, president and vice-president, respectively, of the veterans organization. They said Mohr was setting them up and was trying to give them weapons they didn't want.

They said Mohr had infiltrated their group and Students for a Democratic Society, which Morris and Johnson—both Vietnam veterans—recently revived.

Mohr was charged with possession of illegal firearms, but later was cleared after it was found that the weapons were inoperable, thus legal.

University officials said Mohr had been a member of the campus security force for the past two years and had been working for the special investigation division probing narcotics and illegal organized activities cases.

'Know Your Power Mower' Program For Garden Club

Program for the April meeting of Logan Elm Garden Club was "Know Your Power Mower" by Mrs. Alma McKenzie. Hosting the session in her home was Mrs. Pryor Harriott. She read from the book of John, verses 20:21. The thought for the day was "Are we willing to face the hardships forgiveness requires."

As a response to roll call each member read a nature poem. A communication was read on the Spring Regional Meeting to be Wednesday May 3rd at Romada Inn South, Columbus. Registration will be from 9 to 10 a.m. and reservations are to be made by April 26th.

The Council of Garden Clubs will hold its Spring Meeting May 25th at Good Shepherd United Methodist Church, 310 E. Main St., in the Service Center.

The theme is "Green Survival Our Legacy Of Beauty." Each club will provide one table arrangement to be given as a door prize and one additional door prize. There will be a sales table of plants donated by each club. Registration will begin at 9 a.m.

Members voted to continue support of the Council of Garden Clubs. Mrs. Harriott told about the amphitheater to be built on Sugar Loaf Mountain in Ross County. A donation for this project was made by the club.

The next meeting will be a Spring Tour starting from the home of Mrs. Willson Ross Sr., Laueville at 8 a.m. They plan to tour the glass factories at Bellaire and in West Virginia.

The door prize was won by Donna Beougher and brought by Mrs. Corilla Pontius.

Mrs. McKenzie in her program said that a power mower is not a toy and should not be treated as such. Every precaution should be taken when a mower is in use. Pick up and clean the area before starting the mower, keep children and adults from mowing area. Many an accident has been caused by getting the job done in a hurry. Keep the mower in good working order with a sharp blade and don't forget a mower likes to be kept clean too. Caution at all times in the motto of using a power mower.

Dried flower pictures will be the project at the June meeting. Refreshments were served at the close of the meeting by the hostess.

Jerry Reed Summer Show Like 'Acorn To Blind Hog'

The Circleville Herald, Wed. April 26, 1972 7
Circleville, Ohio

By MARIAN SMITH
Associated Press Writer
NASHVILLE, Tenn. (AP) — A writer once asked Jerry Reed if he would accept a summer replacement television show.

"Son," he said, "is grits groceries?"
Well, grits is groceries, and Jerry Reed has his own summer show-five of them on CBS-TV.

He modestly acknowledges his good fortune. "I guess even a blind hog can find an acorn once in a while."

It took Jerry Reed Hubbard 17 years to find that particular acorn, but during that time he's found more than one. Some were gold.

He had two smash hits, "Amos Moses" and "When You're Hot, You're Hot." He wrote both, which is not unusual because, as he said about song-writing, "that's what I love the most."

He's written songs for such talents as Chet Atkins, better known in the Reed vocabulary as "The Chief," Elvis Presley, Brenda Lee, Tom Jones, Petula Clark and Wayne Newton.

His songs are not all novelty tunes. Some are ballads like "A Thing Called Love" and "Today is mine."

"I like the novelties," he said, "and I'm sure proud they

made it. It's hard to have a hit song these days. But I'd do it one rather have a hit from a song that has some meat to it.

"Still, I'm grateful to have written them. And I'm grateful everytime somebody likes one enough to record it. A song is

something that comes from deep inside you," he said.
Choosing the favorite of his songs is impossible for Reed.

"It's like having a house full of kids, and somebody saying, 'Who's your favorite kid?'"
Getting back to those acorns,

there's one catch to finding so many. "I'm getting so busy I don't have time to write," said Reed. "But I'm gonna get back to it. I got to. I'm gonna drop all this chocolate candy stuff."

Reed might drop "this chocolate candy stuff" to go back to

song-writing, but as he put it, "not before I have time to enjoy it."

After two years as a regular on the Glen Campbell Good-Time Hour, Reed has some definite ideas about his own show.

"It's gonna be nothing like Campbell's," he said. "In fact, it's gonna be reversed. There's a side of me the world hasn't seen yet. We're gonna do comedy. Monologues. Mostly have a good time."

Coca-Cola Chairman Heads Rand Corp.
SANTA MONICA, Calif. (AP) — J. Paul Austin, chairman of the board of the Coca-Cola Co., has been named chairman of the board of trustees of the Rand Corp.
Rand said Monday that Austin, 57, of Atlanta, Ga., will succeed Newton H. Minow, a former Federal Communications Commission chairman, who served two one-year terms as chairman.

Pollution Goals Said Unrealistic

CLEVELAND, Ohio (AP) — U.S. Steel Corp. Chairman Edwin H. Gott says "unrealistic environmental goals that have no scientific basis in fact" can hurt the nation's economy.

"The quickest way to destroy a society like ours is to shut down its economic engine," Gott said in a speech Monday before a session of the American Society of Civil Engineers.

He told the engineers that while some anti-pollution spending "is necessary and would have been accomplished in any event, our capital resources, like natural resources, are not without limits."

Gott said the "pollution crisis" he was concerned about is one that will, "if we're not careful, tie this nation to legislated environmental goals that may seriously undermine our economic strength at home and our economic position among the nations of the world."

More than 11 per cent of the steel industry's total capital investment was spent for anti-pollution systems last year, and installation of new pollution controls "is said to be costing American industry about \$4 billion a year," Gott said.

He said foreign competitors benefit from the added cost to American industry of anti-pollution systems.

Chou Reiterates Hard Line Stand On Vietnam War

LONDON (AP) — Premier Chou En-lai said again Monday there is no chance for peace in Southeast Asia until all U.S. troops are withdrawn from Vietnam.

"We hold that if the question of Indochina is not solved, relaxation of tension in other places will be impossible," the Chinese leader said in a British Broadcasting Corp. television interview with writer Felix Greene.

He also said the joint communique issued at the close of President Nixon's visit to mainland China Feb. 27 showed there are great differences in the Chinese and American attitudes.

"All this shows that there cannot possibly be any secret agreements, and to truly realize the few agreements in principle that we have reached will require a long time and great efforts," Chou said.

What Quality Beef Does A&P Sell?

That's a fair question. But not an easy one to answer because we have our own quality standards, different from any other meat merchant.

These standards don't fit exactly the familiar terms you know for grades of meat. As an example, did you know that some beef, graded U.S. Choice, just doesn't meet our "Super-Right" specifications?

You see...we don't buy by grade. We use our own high standards to bring you the best values.

That doesn't mean we don't approve of such grading...not at all. It just means we're very fussy about the beef we label "Super-Right."

It stands to reason we have to be or A&P wouldn't be America's number one meat merchant.

Jerry Reed Summer Show Like 'Acorn To Blind Hog'

By MARIAN SMITH Associated Press Writer NASHVILLE, Tenn. (AP) — A writer once asked Jerry Reed if he would accept a summer replacement television show.

"Son," he said, "is guts groceries?"

Well, guts is groceries, and Jerry Reed has his own summer show-five of them on CBS-TV.

He modestly acknowledges his good fortune. "I guess even a blind hog can find an acorn once in a while."

It took Jerry Reed Hubbard 17 years to find that particular acorn, but during that time he's found more than one. Some were gold.

He had two smash hits, "Amos Moses" and "When You're Hot, You're Hot." He wrote both, which is not unusual because, as he said about song-writing, "that's what I love the most."

He's written songs for such talents as Chet Atkins, better known in the Reed vocabulary as "The Chief," Elvis Presley, Brenda Lee, Tom Jones, Petula Clark and Wayne Newton.

His songs are not all novelty tunes. Some are ballads like "A Thing Called Love" and "Today is mine."

"I like the novelties," he said, "and I'm sure proud they

made it. It's hard to have a hit song these days. But I'd like to one rather have a hit from a song that has some meat to it.

"Still, I'm grateful to have written them. And I'm grateful everytime somebody likes one enough to record it. A song is something that comes from deep inside you," he said.

Choosing the favorite of his songs is impossible for Reed.

"It's like having a house full of kids, and somebody saying, 'Who's your favorite kid?'"

Getting back to those acorns, there's one catch to finding so many. "I'm getting so busy I don't have time to write," said Reed. "But I'm gonna get back to it. I got to. I'm gonna drop all this chocolate candy stuff."

Reed might drop "this chocolate candy stuff" to go back to song-writing, but as he put it, "not before I have time to enjoy it."

After two years as a regular on the Glen Campbell Good-Time Hour, Reed has some definite ideas about his own show.

"It's gonna be nothing like Campbell's," he said. "In fact, it's gonna be reversed. There's a side of me the world hasn't seen yet. We're gonna do comedy. Monologues. Mostly have a good time."

Pollution Goals Said Unrealistic

CLEVELAND, Ohio (AP) — U.S. Steel Corp. Chairman Edwin H. Gott says "unrealistic environmental goals that have no scientific basis in fact" can hurt the nation's economy.

"The quickest way to destroy a society like ours is to shut down its economic engine," Gott said in a speech Monday before a session of the American Society of Civil Engineers.

He told the engineers that while some anti pollution spending "is necessary and would have been accomplished in any event, our capital resources, like natural resources, are not without limits."

Gott said the "pollution crisis" he was concerned about is one that will, "if we're not careful, tie this nation to legislated environmental goals that may seriously undermine our economic strength at home and our economic position among the nations of the world."

More than 11 per cent of the steel industry's total capital investment was spent for anti-pollution systems last year, and installation of new pollution controls "is said to be costing American industry about \$4 billion a year," Gott said.

He said foreign competitors benefit from the added cost to American industry of anti-pollution systems.

Enrollment Dates Set At Westfall

Three Westfall district schools will hold registration days next month for students enrolling in the summer kindergarten program or regular first grade classes beginning September.

Beginning 9 a.m., the schools have planned enrollment dates as follows:

MONROE SCHOOL — Monday, May 1.

JACKSON SCHOOL — Monday, May 8.

DARBY SCHOOL — Thursday, May 11.

To be eligible, kindergarten and first grade pupils must be six years of age on or before

Sept. 30, 1972. This age is a requirement both for youngsters entering the summer kindergarten program and the regular September first grade term.

Children who do not meet these conditions and who will reach age six on or before Dec. 31, 1972, may, through their parents or guardians, make application for early admission. Applications are available through the office of the Pickaway County Superintendent of Schools, 139 W. Franklin St.

A birth certificate or other legal document is required for all incoming kindergarten and first grade pupils. In addition, a blank pertaining to the child's pre-school medical history will be presented to each parent at the time of registration and must be completed before registration is final.

Under state law, each pupil, at the time of his initial entry into school, must present written evidence that he has received, or is in the process of receiving immunization against polio, small pox, rubella and rubella, diphtheria, pertussis and tetanus, unless such pupil has presented a written statement signed by his parents or guardian objecting to such immunizations, or a physician certifies in writing that such immunization is medically not advisable.

2 Sentenced In Torture Death Of Boy

CLEVELAND, Ohio (AP) — Two Cleveland women pleaded guilty Tuesday to manslaughter in the 1971 torture slaying of a Cleveland high school senior and were sentenced to 1 to 20 years in the Ohio Reformatory for Women at Marysville.

Mrs. Lois Bell, 35, and Mrs. Gloria Jackson, 31, were sentenced by Cuyahoga County Common Pleas Judge Joseph J. Lopresti. They were charged in the death of Parris R. Ray, whose headless body was found July 12.

An informant told police Ray was beaten with a hose for two days because he allegedly lost \$1,000 he was given to buy drugs. The informant said automobile battery acid was injected into Ray's left arm, a powerful liquid drain cleaner was shot into his neck and a quantity of LSD was placed in his mouth.

The informant, a 27-year-old Cleveland man, has been held in jail under \$50,000 bond as a material witness since last summer.

Two other persons, Lois Hicks and Roland Sweet, are awaiting trial in the death. A fifth person, William Barham, still is being sought.

State Monies Received Here

A payment totalling \$194,928.45 will be sent to the Pickaway County auditor for payment of the April, 1972 school foundation funds.

The amounts reflect adjustments in the distribution to local school districts due to the recent passage of a new law. The increase includes a retroactive payment until all schools reorganize for the new fiscal year.

April payments to Circleville City School District are \$99,324.72 and to Teays Valley \$51,743.71. Westfall receives payment of \$36,777.65 while Logan Elm received a cut — only \$7,082.37.

Payment to the county board of education is \$2,499.08.

Tax Nonpayment Charge Denied

CLEVELAND, Ohio (AP) — A spokesman for The Standard Oil Co. (Ohio) Tuesday defended the firm's record as a taxpayer in the face of criticism by U.S. Rep. Charles Vanik, D-Ohio, who said Sohio has not yet paid any corporate tax for 1971.

"We got an extension until mid-June, which is pretty normal for companies our size," the Sohio spokesman said in explaining why taxes have not been paid. "It isn't possible to close the books and get all the data needed for the March 15 deadline."

"Estimated 1971 taxes will be below the highest paid in previous years because of substantial losses incurred by BP Oil Corp., which is our East Coast marketing subsidiary, and expenses involved in the development of our Alaskan North Slope oil fields," the spokesman said.

Social Security Answers

Q: I help a woman with her cleaning and get paid \$15 a week. Does the lady I work for have the right to hold out social security taxes even if I don't want her to?

A: Yes. It's the law. If you earn at least \$50 in a 3-month quarter (January to March, April to June, etc.), she must report your wages for that period.

Henry Lewis Hired As Met Conductor

NEW YORK (AP) — Henry Lewis will become the first black conductor in the history of the Metropolitan Opera.

Lewis, the 39-year-old music director of the New Jersey Symphony, has been engaged to make his debut with the company next season in Puccini's "La Boheme."

iod and send in the social security tax. Social security cash benefits are paid from funds contributed by both the worker and the employer.

Q: I get monthly social security retirement checks. Because I earn a little over \$1,680 each year. I have to file an annual report of my earnings with social security. Since I will become 72 in July, will I have to file an annual report for 1972?

A: Yes. It's true that there is no limit on how much people 72 and over can earn without any reduction in their social security. But since you will not be 72 during some months of 1972—January through June—you must file an annual report of your earnings for the entire year. No annual report will be required for 1973 and later years, however.

Q: I started receiving reduced social security retirement checks last year when I turned 62. I am now 63 and have suffered a stroke. Can I apply for monthly disability payments?

A: Yes. If you are found eligible to receive disability benefits, your retirement benefits will be changed over to disability benefits. You cannot collect benefits under both the disability and the retirement programs at the same time. Your monthly disability payments would be higher than those you receive now under the retirement program.

Q: When my father died 4 years ago, a friend told my mother that she could collect monthly social security checks as a widow at 60. But, the other day I heard that widows can get social security when they're 50. Is this right?

A: Severely disabled widows may collect monthly benefits as early as 50. Others do have to wait until age 60 to qualify for widows' benefits.

White House Aide Told Lie To Cover Kissinger Trip

WASHINGTON (AP) — President Nixon's chief spokesman casually but deliberately told a lie last Thursday to begin building the cover story for Henry A. Kissinger's latest clandestine journey—a four-day mission to Moscow.

It happened beneath the ornate chandelier in the White House State Dining Room, where Nixon was shaking hands with a stream of persons attending a reception for the American Society of Newspaper Editors.

Presidential Press Secretary Ronald L. Ziegler approached a half-dozen reporters covering the reception and said the Pres-

ident would be leaving immediately after all hands were shaken for a weekend at his Camp David retreat in Maryland's mountains.

Nixon went to Camp David. But Ziegler also volunteered that Nixon would be conferring there during the weekend with Kissinger, his assistant for national security affairs; John Ehrlichman, his top domestic adviser; and H.R. Haldeman, chief of the White House staff.

And Ziegler added that the trio of advisers already had gone to Camp David ahead of the President.

This was not true. Kissinger hadn't gone to Camp David. He had gone to Moscow.

Kissinger said Tuesday that his talks with Soviet leaders on Vietnam, other world problems and Nixon's planned May 22-29 Moscow summit began Thursday evening and continued until Monday noon.

A few hours after announcing Kissinger's mission Tuesday, Ziegler said the Camp David concoction was necessary be-

cause "both sides agreed that it was desirable to keep the meeting secret and keep speculation to a minimum ..."

Strip Mine Coal Seen Necessity

CHARLESTON, W. Va. (AP) — The National Coal Association says 198 million tons of surface mined coal produced 28 per cent of the nation's total electric energy output in 1970.

In a report entitled "Impact of Surface-mined Bituminous Coal and Lignite on the U.S. Energy Sector," the association concluded that electric utilities would be unable to function at required levels without surface-mined coal.

In 1970, the report says, 338.8 million tons of coal, or 56.2 per cent of the nation's bituminous production, came from deep mines, while 264.1 million tons, or 43.8 per cent, came from surface mines.

White House cover stories had worked before. Kissinger slipped into China unnoticed last summer while he was supposedly suffering from an upset stomach in Pakistan, and he had commuted to Paris a dozen times during a 30-month period for secret but unsuccessful peace talks with the North Vietnamese.

The latest cover story worked, too, although Ziegler found it necessary to repeat the false report on Kissinger's whereabouts several times.

Ohio River Dangerous For Boaters

CINCINNATI (AP) — Small craft operators have been warned to postpone their boating activities until the swollen Ohio River is free of debris and the current eases.

"If you get into that water, you're in trouble," U.S. Coast Guard Cmdr. John Stewart, head of the Cincinnati port, said Tuesday after the river crested at 51.5 feet. "At present, I would not recommend that people go out there in small boats."

Flood stage of the river is 52 feet, but the National Weather Service said Tuesday the Ohio River would fall to 50 feet by this morning, and 48 feet by Thursday.

"I think most people are sensible enough to stay off the river in this sort of situation," Stewart continued. "The primary dangers are the current and the debris."

"Not all the debris is on the top of the water. Some of it lies just under the surface."

Stewart said most spring and fall problems among users of small crafts occur when persons fully dressed tumble into the water.

"They get into the water one way or another," Stewart said. "And they don't have life preservers on. They sink rather rapidly."

Stewart said that many people who go into the water when it's high don't ever come out.

Cincy Man Robbed Just After Burglary

CINCINNATI (AP) — Oabron Miller doesn't know what to expect next.

The 26-year-old Cincinnati man told police he was bound and gagged and robbed of \$30 Tuesday, just two days after he reported that his home had been burglarized of musical equipment worth \$1,045.

Miller said he was taking a bath Tuesday when he heard a knock at the door. Four men, one of them armed with a revolver, forced him to lie down, and then tied him up and robbed him.

DARBY SCHOOL — Thursday, May 11.

To be eligible, kindergarten and first grade pupils must be six years of age on or before

Sept. 30, 1972. This age is a requirement both for youngsters entering the summer kindergarten program and the regular September first grade term.

Children who do not meet these conditions and who will reach age six on or before Dec. 31, 1972, may, through their parents or guardians, make application for early admission. Applications are available through the office of the Pickaway County Superintendent of Schools, 139 W. Franklin St.

A birth certificate or other legal document is required for all incoming kindergarten and first grade pupils. In addition, a blank pertaining to the child's pre-school medical history will be presented to each parent at the time of registration and must be completed before registration is final.

Under state law, each pupil, at the time of his initial entry into school, must present written evidence that he has received, or is in the process of receiving immunization against polio, small pox, rubella and rubella, diphtheria, pertussis and tetanus, unless such pupil has presented a written statement signed by his parents or guardian objecting to such immunizations, or a physician certifies in writing that such immunization is medically not advisable.

Ohio River Dangerous For Boaters

CINCINNATI (AP) — Small craft operators have been warned to postpone their boating activities until the swollen Ohio River is free of debris and the current eases.

"If you get into that water, you're in trouble," U.S. Coast Guard Cmdr. John Stewart, head of the Cincinnati port, said Tuesday after the river crested at 51.5 feet. "At present, I would not recommend that people go out there in small boats."

Flood stage of the river is 52 feet, but the National Weather Service said Tuesday the Ohio River would fall to 50 feet by this morning, and 48 feet by Thursday.

"I think most people are sensible enough to stay off the river in this sort of situation," Stewart continued. "The primary dangers are the current and the debris."

"Not all the debris is on the top of the water. Some of it lies just under the surface."

Stewart said most spring and fall problems among users of small crafts occur when persons fully dressed tumble into the water.

"They get into the water one way or another," Stewart said. "And they don't have life preservers on. They sink rather rapidly."

Stewart said that many people who go into the water when it's high don't ever come out.

Cincy Man Robbed Just After Burglary

CINCINNATI (AP) — Oabron Miller doesn't know what to expect next.

The 26-year-old Cincinnati man told police he was bound and gagged and robbed of \$30 Tuesday, just two days after he reported that his home had been burglarized of musical equipment worth \$1,045.

Miller said he was taking a bath Tuesday when he heard a knock at the door. Four men, one of them armed with a revolver, forced him to lie down, and then tied him up and robbed him.

Social Security Answers

Q: I help a woman with her cleaning and get paid \$15 a week. Does the lady I work for have the right to hold out social security taxes even if I don't want her to?

A: Yes. It's the law. If you earn at least \$50 in a 3-month quarter (January to March, April to June, etc.), she must report your wages for that period and send in the social security tax. Social security cash benefits are paid from funds contributed by both the worker and the employer.

Q: I get monthly social security retirement checks. Because I earn a little over \$1,680 each year. I have to file an annual report of my earnings with social security. Since I will become 72 in July, will I have to file an annual report for 1972?

A: Yes. It's true that there is no limit on how much people 72 and over can earn without any reduction in their social security. But since you will not be 72 during some months of 1972—January through June—you must file an annual report of your earnings for the entire year. No annual report will be required for 1973 and later years, however.

Q: I started receiving reduced social security retirement checks last year when I turned 62. I am now 63 and have suffered a stroke. Can I apply for monthly disability payments?

A: Yes. If you are found eligible to receive disability benefits, your retirement benefits will be changed over to disability benefits. You cannot collect benefits under both the disability and the retirement programs at the same time. Your monthly disability payments would be higher than those you receive now under the retirement program.

Q: When my father died 4 years ago, a friend told my mother that she could collect monthly social security checks as a widow at 60. But, the other day I heard that widows can get social security when they're 50. Is this right?

A: Severely disabled widows may collect monthly benefits as early as 50. Others do have to wait until age 60 to qualify for widows' benefits.

Henry Lewis Hired As Met Conductor

NEW YORK (AP) — Henry Lewis will become the first black conductor in the history of the Metropolitan Opera.

Lewis, the 39-year-old music director of the New Jersey Symphony, has been engaged to make his debut with the company next season in Puccini's "La Boheme."

NEW YORK (AP) — Henry Lewis will become the first black conductor in the history of the Metropolitan Opera.

Lewis, the 39-year-old music director of the New Jersey Symphony, has been engaged to make his debut with the company next season in Puccini's "La Boheme."

Over the years, Savings and Loan Associations have financed over half the homes in the country. Offering the homebuyer a reasonable mortgage interest rate. And giving the saver, whose money makes it all possible, a good return on his savings.

We're doing a lot for America.

White House Aide Told Lie To Cover Kissinger Trip

WASHINGTON (AP) — President Nixon's chief spokesman casually but deliberately told a lie last Thursday to begin building the cover story for Henry A. Kissinger's latest clandestine journey—a four-day mission to Moscow.

It happened beneath the ornate chandelier in the White House State Dining Room, where Nixon was shaking hands with a stream of persons attending a reception for the American Society of Newspaper Editors.

Presidential Press Secretary Ronald L. Ziegler approached a half-dozen reporters covering the reception and said the Pres-

ident would be leaving immediately after all hands were shaken for a weekend at his Camp David retreat in Maryland's mountains.

Nixon went to Camp David. But Ziegler also volunteered that Nixon would be conferring there during the weekend with Kissinger, his assistant for national security affairs; John Ehrlichman, his top domestic adviser; and H.R. Haldeman, chief of the White House staff.

And Ziegler added that the trio of advisers already had gone to Camp David ahead of the President.

This was not true. Kissinger hadn't gone to Camp David. He had gone to Moscow.

Sisco Hopeful Of Mideast Peace

CLEVELAND, Ohio (AP) — A high State Department official said Tuesday night the 21-month cease fire in the Middle East offers some hope for lasting peace.

Joseph Sisco, assistant secretary of state for Near Eastern and South Asian affairs, said neither Egypt nor Israel "wants to resume the shooting... regardless of the strident rhetoric that one hears."

But Sisco added that "in the absence of negotiations, the prospects of over-all settlement in the foreseeable future are dim."

Body Identified; Pulled From River

WARSAW, Ky. (AP)—The body of a man recovered from the Ohio River has been identified as that of Harry Robertson, a construction worker on a bridge project about 60 miles upstream in the Cincinnati area.

Identity of the body was made Tuesday. It was recovered Monday near the Markland Dam.

cause "both sides agreed that it was desirable to keep the meeting secret and keep speculation to a minimum..."

Strip Mine Coal Seen Necessity

CHARLESTON, W. Va. (AP) — The National Coal Association says 198 million tons of surface mined coal produced 28 per cent of the nation's total electric energy output in 1970.

In a report entitled "Impact of Surface-mined Bituminous Coal and Lignite on the U.S. Energy Sector," the association concluded that electric utilities would be unable to function at required levels without surface-mined coal.

In 1970, the report says, 338.8 million tons of coal, or 56.2 per cent of the nation's bituminous production, came from deep mines, while 264.1 million tons, or 43.8 per cent, came from surface mines.

White House cover stories had worked before. Kissinger slipped into China unnoticed last summer while he was supposedly suffering from an upset stomach in Pakistan, and he had commuted to Paris a dozen times during a 30-month period for secret but unsuccessful peace talks with the North Vietnamese.

The latest cover story worked, too, although Ziegler found it necessary to repeat the false report on Kissinger's whereabouts several times.

Now that warm weather is here to stay, many of us will be adjusting our menus to include foods cooked on the outdoor grill. Before you fall into the routine of hamburgers, hotdogs and steaks for the grill, write for my free booklet "Let's Have A Porkeque!" There are many cuts of pork suitable for grilling or rotisserie and pork adds welcome variety to outdoor meals. Here's an example of the delicious recipes included in this booklet:

PATIO PORK STEAKS

Place 4-6 pork steaks in flat utility dish. Pour marinade over them and marinate in refrigerator four hours. Place steaks on grill and broil at low to moderate temperature, brushing with marinade and turning occasionally for 35-45 minutes or until done. Serves 4-6.

MARINADE - Combine 1 cup bottled barbecue sauce, 1 cup sweet pickle juice or beer, 1 teaspoon Worcestershire sauce and 2 teaspoons salt.

Derby

Mrs. Georgia Sweet
896-2462

Mr. Harry White, who has been very ill the past two weeks in the hospital, will be coming home one day this week. We are all pleased to hear this as Whitey is a very nice person and has many friends and well-wishers in this area. We have missed his friendly smile recently. Good to have you back, "Whitey." His address is Rt. 1, Orient, Ohio 43146.

The Derby Senior Choir has been invited to sing at services in Jamestown, on May 6. Reverend Don Durant of the Apage Ministry is holding services there in the local high school. Our choir is under the direction of Mrs. Norman Myers.

The Derby Evening Circle is sponsoring a Smorgasbord at the Derby Church on Saturday, April 29, from 5:30 p.m. Tickets for adults and children will be available. Come and bring your friends.

The sympathy of the community especially, our young people, is extended to the family of Mr. Shearer, our school superintendent, who passed away on Tuesday.

Birthdays to date include:
Bobby Liff, Josephine Yoakum, Barbara Chamberlain, Gary Wright, Jan Long, Diane Brigner, Bill Dudson — April 20; Rod Davis, Jean McKay, Luann Karshner, Georgia Dick, Sue Rhoades, Julie Ogle — April 23; Janet Carle, Rose Adene Hoffman, Debbie Ogle, Mike Barthen, Victor Stires, Sandra Drummond, Josephine Rice — April 24; Melissa Azbell, Diane Pobst, Debbie Clem — April 25; Tommy Walters, Norma Lee Rowland, Diane Snyder, Norman Rowland — April 26; David Scribner, Theresa Coleman, Pat Neville, Virginia Pfeiffer — April 27; Lydia Brown — April 28; Freda Stires, Blanche Wrightsels — April 29.

"I have just received a nice letter from Mrs. Nelle Bauhan in which she says, 'As I read in the paper today I saw in the Derby News I was still in Medi-center. Actually, I am very happy to be at home. I came home on April 8, and was so glad to come. I am getting along fine with the help of my walker, as my legs are not strong enough yet to go without it. I do appreciate all the cards and letters from Derby friends and also the visit from Reverend Spear.

Several ladies from the Derby WSCS also paid me a visit and brought me a lovely basket of fruit and some beautiful flowers. It made me very happy to know my Derby friends still remembered."

"I know everyone will be glad to know she is so much improved and in such good spirits. Her address is Box 186-B, Rt. 1, Pickerington, Ohio in care of B. Redman. (43147).

Lowers Arrested On Fraud Charge

AKRON, Ohio (AP) — Dorsey Don Lowers, the Akron lawyer who built a paper empire with debts totaling some \$12 million, has been arrested by federal agents on an indictment accusing him of giving false information to secure \$200,000 in bank loans.

Lowers, 42, was arraigned Monday before U. S. Magistrate Ralph W. Hartz and was released on \$5,000 bond.

US. Atty. Frederick M. Coleman said Lowers was indicted by a federal grand jury Friday on two counts of giving false information for the purpose of securing loans in violation of the Federal Reserve Act.

Lowers' attorney listed some 1,400 creditors in bankruptcy court earlier this year and said more than \$11 million of the \$12 million debt was owed investors who had risked money in Lowers' quick profit investment program.

Washing Streets Proves Boo-Boo

FLINT, Mich. (AP) — The orders of the day called for downtown Flint streets to be washed down so the Water Department dutifully set about the task Tuesday.

The only problem was that no one looked at the thermometer—which read a below-freezing 29 degrees. Within a short time, as one observer said, "The streets looked like a giant ice skating rink."

Embarrassed city officials hurriedly sent salt crews out to thaw the ice.

Another Cold Wave On The Way

By THE ASSOCIATED PRESS
Half way through the last full week in April, spring still seemed just around the corner today.

What was actually around the corner, however, was another cold wave stretching across the Great Plains. Cold, cloudy and windy weather laced with rainstorms, hail and a few tornadoes extended from North Dakota to Texas.

Severe thunderstorms near Lamar, Colo., pelted the fields with up to an inch of hail and caused local flooding late Tuesday. County snow plows were called out in some areas to clear the roads of hailstones.

A tornado ripped the roof off a barn in a country town 17 miles south of La Junta, Colo., while another funnel cloud was spotted north of Lamar.

The cold and stormy conditions caused stockmen's warnings to be posted for Montana, Wyoming, Colorado, Nebraska and Kansas.

To the west of the cold front, showers and snow flurries were scattered across the Rockies.

Fair, but cool, weather dominated the rest of the nation, with clear skies up and down the Pacific Coast and from the Mississippi to the Atlantic.

Temperatures before dawn ranged from 21 at Evanston, Wyo., to 77 at Key West, Fla.

Portsmouth Police Stage Sick Call

PORTSMOUTH, Ohio (AP)—A sick-out of Portsmouth police officers entered its second day today with eight of the 11 men scheduled on duty for the mid-night shift failing to show up for work.

The three officers who did report for duty, along with supervisory personnel, one detective and Chief Harold Cooper manned patrol cars and tended to headquarters assignments during the early morning hours.

Cooper called police coverage "close to normal."

Officers began calling in sick just before the start of the third shift Tuesday afternoon.

Cooper said the "blue flu" was an expression of dissatisfaction with the progress of negotiations between police and city officials over a new contract.

The city has reportedly offered a flat, \$62-a-month increase for the first year of a three-year contract. The increase would apply to all ranks. The police union was said to be asking for a 21 per cent increase and a one-year contract.

Another Cold Wave On The Way

By THE ASSOCIATED PRESS

Half way through the last full week in April, spring still seemed just around the corner today.

What was actually around the corner, however, was another cold wave stretching across the Great Plains. Cold, cloudy and windy weather laced with rain storms, hail and a few tornadoes extended from North Dakota to Texas.

Severe thunderstorms near Lamar, Colo., pelted the fields with up to an inch of hail and caused local flooding late Tuesday. County snow plows were called out in some areas to clear the roads of hailstones.

A tornado ripped the roof off a barn in a country town 17 miles south of La Junta, Colo., while another funnel cloud was spotted north of Lamar.

The cold and stormy conditions caused stockmen's warnings to be posted for Montana, Wyoming, Colorado, Nebraska and Kansas.

To the west of the cold front, showers and snow flurries were scattered across the Rockies.

Fair, but cool, weather dominated the rest of the nation, with clear skies up and down the Pacific Coast and from the Mississippi to the Atlantic.

Temperatures before dawn ranged from 21 at Evanston, Wyo., to 77 at Key West, Fla.

Portsmouth Police Stage Sick Call

PORTSMOUTH, Ohio (AP)—A sick-out of Portsmouth police officers entered its second day today with eight of the 11 men scheduled on duty for the mid-night shift failing to show up for work.

The three officers who did report for duty, along with supervisory personnel, one detective and Chief Harold Cooper manned patrol cars and tended to headquarters assignments during the early morning hours.

Cooper called police coverage "close to normal."

Officers began calling in sick just before the start of the third shift Tuesday afternoon.

Cooper said the "blue flu" was an expression of dissatisfaction with the progress of negotiations between police and city officials over a new contract.

The city has reportedly offered a flat, \$62-a-month increase for the first year of a three-year contract. The increase would apply to all ranks. The police union was said to be asking for a 21 per cent increase and a one-year contract.

Insurance Agents Back Habitual Offender Law

The Ohio Assn. of Insurance Agents and the Pickaway County Insurance Agents Assn. urge enactment of a habitual offender law (H. B. 1010) designed to rid Ohio roadways of chronic traffic offenders.

In supporting the measure, which is co-sponsored by the Ohio House of Representatives' Highways and Transportation Committee Chairman Gordon Scherer and four others, Sterling Poling, president of the local association, explained the need for such safety legislation.

For the last several years, 50 Ohioans have died in traffic accidents in an average week. Countrywide, the weekly average has exceeded 1,000 for the past five years. The annual toll exceeds the 10-year war casualty figure in Southeast Asia.

"We know a drinking driver is involved in half the fatal accidents, but this bill covers all types of highway menaces — the drag racer, the driver who uses drugs, the hit-and-run motorist, those who continue driving after licenses are suspended, and any other motorist who has repeated violations."

POLING said H. B. 1010 puts teeth into existing laws which have failed to stop scofflaws who, by their driving records, show utter contempt for highway regulations.

Any driver who has accumulated three serious convictions or 12 lesser convictions automatically would be classified as a habitual offender. The serious convictions include drunk driving, hit-and-run, vehicular manslaughter, driving without a license or

after a license is suspended.

"If found operating a motor vehicle, the habitual offender can lose the vehicle by confiscation under H. B. 1010," Poling states.

"Operating a motor vehicle calls for a jail sentence from one to five years which virtually cannot be suspended. The habitual offender could have his driving privileges restored only by a court after a 10-year period."

He added that the provisions of the bill are not unreasonably harsh.

"The typical Ohio motorist has a right to maximum safety on the highways: the habitual offender denies the other motorists this right," Poling said.

THE habitual offender penalties discourage repetition of criminal acts committed by drivers who, almost always, are uninsurable and bear no burden of financial responsibility for those they kill or injure.

Passage of such legislation can reduce the tragic death and injury toll, while braking the spiraling auto insurance costs — a twofold benefit to the consumer."

In Virginia, a habitual offender law was passed in 1968. Poling cited statistics of the National Safety Council that show Virginia's motor vehicle deaths declined 14 per cent on a mileage exposure basis from 1968 to 1970 — from 5.0 fatalities per 100 million vehicle miles to 4.3. An additional seven per cent decline is forecast for 1971 based on preliminary statistics.

"In Russia, a drunken driver who injures others may be executed by a firing squad,"

Poling remarked. "All we want is to get the habitual offender off the road."

Myrl Shoemaker, Pickaway-Ross representative, is a member of the Highways and Transportation Committee, which is currently reviewing the bill.

He reports that it has met with opposition from many persons in the state because of its stiff penalties, including the jail sentence and the 10-year license suspension section.

Shoemaker states he favors the bill and urges citizens of Pickaway County and Circleville who also favor the legislation to make the roadways safer to write him or the sponsors of the bill: Gordon M. Scherer, R-Cincinnati; Vernal G. Riffe Jr., D-New Boston; Robert E. Netzley, R-Laura; Rodney H. Hughes, R-Bellefontaine; William E. Hinig, D-New Philadelphia.

See Doctors More Involved With Preventive Medicine

LOS ANGELES (AP) — Doctors are becoming more involved with man's environment and are leaning toward preventive medicine, according to officials of American Medical Association.

Many doctors are working with local councils "to get rid of slums rather than just treating the therapeutic aspects of lead poisoning of children who eat peeling paint in poor housing," said Dr. Henri F. Wendel of New Castle, Del., vice chairman of the AMA's Council on Environmental and Public Health.

Dr. Edward Press, chairman of the council who is presiding at a two-day AMA conference on environmental health which ends today, cited "increasing ferment and liberal intent" within the AMA as the reason for the change.

"I think the interest of the American Medical Association

is gradually swinging in favor of preventive medicine and community participation rather than private practice," said Press, Oregon's public health officer.

As an example, he cited this year's session of the council and its emphasis on improving housing because of its relationship to health.

The conference is devoted each year to a different environmental problem. In the past topics of discussion have been air pollution, water pollution and noise.

"This doesn't have to do with fees or practice," Press said.

"It concentrates on the prevention of disease. It means a loss of fees if successful. I think that's an indication of change, at least in image if not in action."

Wendel told newsmen the council's task is to provide doctors with information so that

they can perform effectively on the local level.

"If something comes up about pollution doctors are being consulted. If you have something that could affect the

lungs or kidneys, you don't ask an engineer," he said.

Doctors at the conference discussed the effects of housing and working environment on health and heard papers which

asserted that pollution, excessive noise and crowded conditions contribute to disease.

Model Rockets Grab Fancy; \$18-Million-Yearly Industry

By TERRY RYAN — Associated Press Writer

Model rockets that actually fly have captured the fancy of space age boys and zoomed into an \$18-million-a-year industry that gets a special boost with every moon shot.

Propelled by small chemical charges, the rockets sail up to a couple of thousand feet and then float to earth on parachutes.

Boys 9 to 14 years old—whose fathers and older brothers might have been satisfied with model airplanes—buy 90 per cent of the model rockets sold across the country, said Leroy Piester, president of Centuri Engineering Co. of Phoenix, Ariz., a model-rocket manufacturer.

Billy Carruth, a fifth-grader in Bedford, Mass., saved money from his allowance and paper route to acquire a fleet of seven rockets.

"The fun is in the challenge of building them and flying them and the recovery," said Billy. "I just wanted to see what it was like. It is a real challenge just before dusk, when you can see the white flaring out of the engine."

The model rockets are made from cardboard, balsa wood or light plastics and range from 6 inches to 4 feet in length. They sell for from 75 cents to \$20.

The engines that propel them consist of a nonmetallic case, a ceramic nozzle and a solid chemical charge that usually weighs less than three-tenths of an ounce. They are ignited by electric current from a battery and cost about 35 cents each.

Model-rocket manufacturers insist the engines are perfectly safe, but New York City and a few other areas have banned them as fireworks. Manufacturers will not discuss the chemical composition of the fuel.

Average Consumer Out Of Market?

BOSTON (AP) — A researcher for the Savings Banks Association of Massachusetts says his study indicates the person who bought the average home 10 years ago in the Pay State might not be able to afford it today.

Elliott G. Carr, director of research, said today the average first year costs of buying a home in 1962 were about 13 per cent of the family's income, while in 1972 the average cost is 19 per cent.

Washington Lobbyist For Cincy Disputed

CINCINNATI (AP) — A renewed proposal for this city to hire a Washington lobbyist has met a chilly reception from the city's two congressmen.

The lobbyist proposal, which would pay \$48,000 to a person working in Cincinnati's interest in Washington, D.C., was made by City Councilman Gerald Springer.

OHIO WEATHER SUMMARY

COLUMBUS, Ohio (AP) — Here is the Ohio weather summary from the National Weather Service:

Cool air fed by high pressure and clear skies caused the mercury to fall to record lows around Ohio during the night.

New record lows were set at Toledo and Columbus, which reported 25 degrees. Other records were 26 degrees at Cleveland and Youngstown and 27 at Columbus. Temperatures near the Ohio River were in the mid 30s.

Highs today will be in the 50s in the north to the lower 60s in the south. Skies will be clear today and tonight. Lows tonight will be in the 30s.

Thursday will be fair and warmer. Highs will be in the upper 50s to the mid 60s.

FORECASTS

OHIO — Clear and cool tonight. Lows in the 30s. Fair and warmer Thursday. Highs from the upper 50s to mid 60s.

WEST CENTRAL, NORTHWEST INLAND — Clear and not as cool tonight. Lows in the mid 30s. Thursday fair and warmer. Highs from the upper 50s to mid 60s.

SOUTHWEST, SOUTHEAST — Clear and cool tonight. Lows in the mid to upper 30s. Thursday fair and warmer. Highs in the low to mid 60s.

PUCO Secretary, Assistant Resign

COLUMBUS, Ohio (AP) — David Pemberton, 31, secretary to the Public Utilities Commission of Ohio, and his administrative assistant, John McIlhargey, 27, have both resigned from their posts, effective Sunday.

Pemberton, an attorney, said he was leaving his \$20,000-a-year post to return to private practice. McIlhargey, Pemberton's brother-in-law, cited "personal reasons" for his resignation.

PUCO Chairman Henry Eckhart says he has not yet chosen a replacement for Pemberton.

Barge Mishap Testimony Conflicts

LOUISVILLE, Ky. (AP) — A towboat pilot and a bridge operator gave the Coast Guard conflicting testimony Monday in a hearing to determine the cause of the barge accident March 19 in which an Ohio River tow broke up and four barges — three with potentially dangerous cargoes — went adrift at the entrance to the McAlpine Locks.

One of the barges, containing liquid chlorine, ended up wedged in a gate of the McAlpine Dam. During operations to secure that barge, more than 4,000 people were evacuated from the Portland area of Louisville April 1.

Lt. Cmdr. James Webb, conducting the one-man Coast Guard investigation, heard both versions Monday.

Carl Gentry, operator of the Penn Central Railroad Bridge across the canal entrance, said the bridge was open, but the tow was too far out in the channel, got caught in the swift current, went out of control, hit the head of the island and broke up.

Dexter Lineberry, the pilot of the towboat James F. Hunter, said the bridge wasn't open, the tow had to reverse its engines

War Could Hamper Moscow Trip

By WILLIAM L. RYAN
AP Special Correspondent

It is easy to envisage a set of circumstances that could make it impossible for President Nixon to go through with his visit to Moscow next month.

The latest mission of the peripatetic Henry A. Kissinger can arouse speculation that the current North Vietnamese offensive in South Vietnam could produce such circumstances.

There's evidence that neither Moscow nor Washington wants that to happen. Each seems eager for the summit to go on.

But the way the President's adviser announced his secret four-day stay in Moscow suggested that Vietnam was high on the list of subjects to be probed before the trip.

Moscow continues to advertise a determination to give North Vietnam and the Viet Cong "all necessary aid."

That aid has been enormous. Initial arrangements for the Nixon visit were made at a time of relative lull in Vietnam. The U.S. troop withdrawal program was proceeding on schedule.

When Nixon was about to visit China, a North Vietnamese military buildup was noted. It might have been expected that an offensive would come to embarrass the Chinese. It didn't happen.

What's going on? Kissinger could well ask. Why an offensive now, when it can embarrass the Russians? It has been going on almost a month and the North Vietnamese are believed capable of sustaining it for yet another month. Should it rack up a clear major victory and establish, say, a capital

for the Viet Cong's Provisional Revolutionary Government that would make the Nixon visit almost impossible.

Would Hanoi deliberately set out to embarrass its protector and benefactor? Would the offensive have taken place if Moscow had warned against it?

These are puzzling questions. Kissinger may not have received satisfactory answers. He adopted a Soviet device in describing the talks as "frank," which in Moscow would mean they got nowhere.

Leonid Brezhnev, the party general secretary who is to meet with Nixon, set the tone March 20 in a notably mild speech that dwelt on the Soviet intention to "improve the political climate of the planet."

The Russians want the summit for variety of weighty reasons, some connected with the economy. Perhaps the Vietnamese did, after all, deliberately set out to put the Kremlin on a spot. Perhaps Hanoi is wary and distrustful of what might happen at the summit. But unless Hanoi can produce a truly dramatic victory, it seems likely that the May summit will be held as planned.

Kennedy Is Backed By Union

ATLANTIC CITY, (AP) — Sen. Edward M. Kennedy addressed the convention of the 1.4 million member United Auto Workers Union and went away with an informal presidential endorsement.

Kennedy was interrupted frequently by applause Tuesday during his 30-minute speech and was mobbed by delegates as he tried to leave the hall. After Kennedy's departure, delegate Charles White of Lordstown, Ohio, rose and moved that the convention endorse Kennedy for President.

UAW President Leonard Woodcock voted that Kennedy has steadfastly removed himself from consideration as a presidential candidate.

"Should Ted Kennedy make the decision to make the effort to become president of the United States, I would have no difficulty enlisting in that cause," he added.

Woodcock, along with most top UAW officials, is personally committed to the presidential campaign of Sen. Edmund Muskie, D-Maine.

The UAW president asked the delegates "can we interpret the motion as saying that should that decision be made by Sen. Kennedy—and only he can make that decision—that the UAW is ready to enlist in his cause."

A straw vote was taken showing nearly unanimous support for the motion.

Alarm Works, Judge Discovers

CLEVELAND, Ohio (AP) — The quietness of the Cuyahoga County Criminal Courts building suddenly changed Tuesday to wailing alarms and heavy footsteps from about two dozen sheriff's deputies who rushed to a courtroom.

"Did I do that?" asked embarrassed Perry County Common Pleas Judge Robert G. Tague, sitting on the Cuyahoga County bench on assignment.

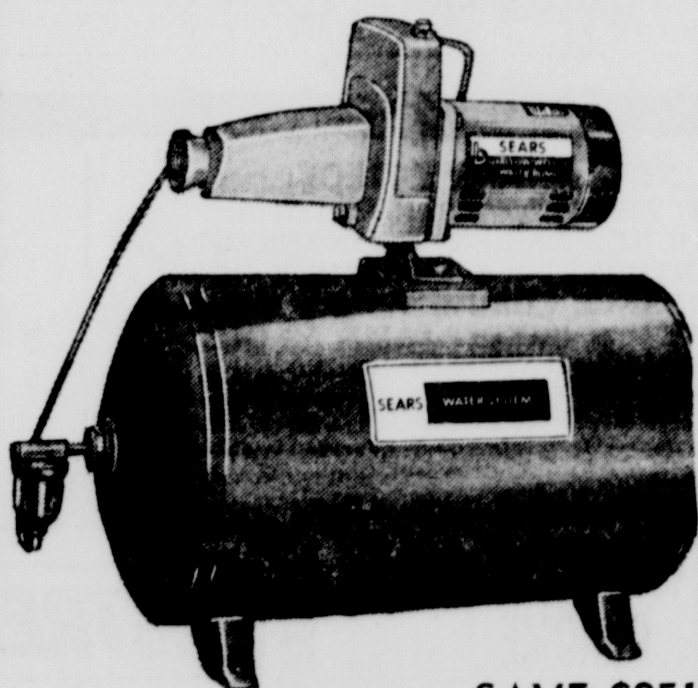

His foot still was resting on an alarm switch on the floor under his bench.

Brinker Sets Shot Record

Vikings Thinclads Nipped By WJ

Jack Brinker set a new Teays Valley record in the shot but the Vikings were edged by West Jefferson, 64½-62½, in a dual track meet Tuesday on the Roughriders oval.

Brinker tossed the shot 53 feet 4 inches to break his own school record of 53 feet 1½ inches.

The Vikings garnered seven first place finishes, eight second spots and six third places in the meet.

Bob Smith was a double individual winner for the Blue and Gold. He captured the mile run with a time of 4:49.4 and led the field in the 440 run in 56.7.

OTHER first place winners for the Vikings were Howard Reed, discus, 123 feet 11 inches; Jeff Sheets, high jump, 5 feet 4 inches; Randy Nungester, pole vault, 9 feet, and the mile relay team, Sheets, Don Burgoon, Terry Lockard and Fred Rice, 4:05.1.

Second spots were taken by Reed, shot; Brinker, discus; Jim Logsdon, 120 high hurdles; Rice, 880 run; Lance Henson, 220-yard dash; Gary Hines, two-mile run, and Tony Sayre, pole vault.

Third place finishes went to John Little, shot and discus; Henson, 110 yard dash; Lockard, 440 run; Boyd Palsgrove, 180 low hurdles, and

Mike Figgins, two-mile run. The Vikings will run again Thursday at Circleville.

Here are the results of the meet:

Shot — Brinker (T), Reed (T), Little (T), 53 feet 4½ inches. New school record.

Discus — Reed (T), Brinker (T), Little (T), 123 feet 11 inches.

Long Jump — Ata (W), Orcutt (W), Birchett (W), 19 feet.

High Jump — Sheets (T), Buerly (W), Orcutt (W), 5 feet 4 inches.

Pole Vault — Nungester (T), Sayre (T), Holden (W), 9 feet.

120 HH — Louden (W), Logsdon (T), Thompson (W), 17.4.

100-Yard Dash — Warner (W), Hunter (W), Henson (T), 10.7.

Mile Run — Smith (T), Fisher (W), Herll (W), 4:59.5.

880 Relay — West Jefferson, Teays Valley, 1:46.9.

440 Run — Smith (T), Duffy (W), Lockard (T), 56.7.

180 LH — Louden (W), Kay (W), Palsgrove (T), 22.9.

880 Run — Ellinger (W), Rice (T), Hall (W), 2:18.8.

220 Dash — Warner (W), Henson (T), Birchett (W), 25.8.

2-Mile Run — Bester (W), Hines (T), Figgins (T), 11:33.1.

Mile Relay — Teays Valley (Sheets, Burgoon, Lockard, Rice) 4:05.1.

\$395,330 In Stadium Bills Face Cincinnati Teams

CINCINNATI (AP) — City officials are trying to collect \$395,330 that they say three Riverfront Stadium tenants owe for electricity bills from June 30, 1970, until March.

The city, which owns the stadium and has paid the Cincinnati Gas & Electric Co. for the electricity usage, is seeking reimbursement from the Cincinnati Reds, Cincinnati Bengals, and Sportservice, Inc., the stadium concessionaire.

The tenants disagree over the amount each is said to owe because the electricity usage has been registered on a single meter at the stadium.

During a meeting among Reds, Bengals and city officials Tuesday, stadium manager Don Wehmeyer said the city pre-

sented the tenants last September with bills totaling \$227,946 for electricity used between the opening of the stadium June 30, 1970, and June 22, 1971, but has not received any money.

Wehmeyer said the figure included \$108,882 from Sportservice, \$82,354 from the Reds and \$36,710 from the Bengals.

In addition, the three owe \$167,384 for the span from last June 22 to March of this year, but bills haven't yet been submitted for that figure. Wehmeyer said. Of that sum, Sportservice owes \$82,637, the Reds \$57,672 and the Bengals \$27,075.

The Reds said Tuesday they were withholding judgment until they can re-examine bills in consultation with CG&E.

The Bengals agreed to pay \$30,000 of \$63,785 the city says they owe, but the payment is subject to later adjustment of the overall amount.

City officials said they would meet later with Sportservice representatives.

City officials said the single meter has been used in order to receive a better rate from CG&E. But they added that new equipment is on order to provide a more accurate accounting of individual usage of electricity by the tenants.

Wood, White Sox Shut Out Tribe, 6-0

By HAL BOCK

Associated Press Sports Writer

Call Marvin Miller. The American League's hitters are back on strike—put there every time Wilbur Wood and his knuckleball go to work for the Chicago White Sox.

Wood has pitched 36 innings this season and allowed exactly one run. Only a two-out homer by Kansas City's Bob Oliver in the bottom of the ninth inning of his first start mars Wood's pitching record so far.

The rubber-armed right-hander hurled his third consecutive shutout Tuesday night, baffling Cleveland 6-0 as the White Sox won their sixth straight game.

In other American League action Tuesday, Oakland edged New York 4-3 in 12 innings, Minnesota blasted Boston 12-0.

Kansas City trimmed Baltimore 3-0, California downed

Milwaukee 4-1 and Detroit took Texas 4-1.

The White Sox have played nine games this season and Wood has started four of them. He works with two days rest because the knuckler puts virtually no strain at all on his pitching arm.

The AL hitters haven't been putting much of a strain on Wood either. The Indians managed seven hits against the knuckler but three double plays kept Wood out of serious trouble.

Chicago, which dropped its first three games of the season before Wood straightened things out, struck for three runs in the sixth inning, snapping a scoreless duel between the knuckleballer and young Milt Wilcox.

That was plenty for Wood, who got only one run in each of his first two starts this season.

Pitching dominated elsewhere in the AL too.

Dick Drago's two-hitter ended Kansas City's six-game losing streak as the Royals blanked Baltimore.

California's Clyde Wright, Jim Perry of Minnesota and Detroit's Mickey Lolich all had four-hitters.

Wright drove in two runs in the seventh inning with a clutch double as the Angels snapped a 1-1 tie by scoring three times.

Lolich survived a shaky first inning to subdue Texas, ending the Rangers' four-game winning streak. Tony Taylor tripled home two runs for the Tigers.

Perry coasted past Boston as Steve Braun and Steve Brye combined to drive in seven runs for the Twins.

Minnesota piled up nine runs in the first two innings, making it easy for Perry.

Tigers Lose To Chillicothe

Circleville's track team ran in to a blitzkrieg Tuesday at Chillicothe and were overwhelmed by the powerful Cavaliers, 84½-42½.

Thomas of Chillicothe was the fly in the ointment with victories in the long jump, 21 feet; 100-yard dash, 10.15; 220-yard dash, 23.6, and anchored the winning 880 relay team.

Tom Frericks was a double winner for the Tigers. He captured the shot with a toss of 50 feet 2 inches and hurled the discus 167 feet 1 inch.

Richie Speakman was the only other winner for the Tigers as he took the 180 low hurdles in 21.1.

SECOND place winners for the Tigers were Dave Pontious, long jump; Stu Moore, high jump; Reggie Radcliff, pole vault; Dick Liston, mile; Dave Webb, 880 run; Marc Warner, 220-yard dash, and Steve Richard, two-mile run.

Tigers gaining third spots

were Moore, discus, Chris Payne, pole vault and 180 low hurdles; Speakman, 120 high hurdles; Warner, 100-yard dash; Joe McGowan, 440 run, and Tom Shea tied for third in the high jump.

Circleville will host Teays Valley and Jackson 4:30 p.m. Thursday.

Here are the results of the meet:

Shot — Frericks (C), Lewis (CH), Woods (CH), 50 feet 2 inches.

Discus (Frericks (C), Woods (CH), Moore (C), 167 feet 1 inch.

L.A. Lakers Must Stop DeBusschere

LOS ANGELES (AP) — The Los Angeles Lakers feel they have to neutralize Dave DeBusschere. The New York Knicks face the task of stopping Wilt Chamberlain.

The two teams meet tonight in the first game of the best-of-seven series to determine the National Basketball Association champion. The nationally televised game, with Los Angeles blacked out, was scheduled to begin at 7 p.m. (PST) at the Forum.

"DeBusschere is their best man as far as rebounding and shooting outside are concerned," said K.C. Jones, Lakers' assistant coach, of the 6-foot-6 Knick centerman. "He must be stopped."

Six-foot-7 Laker forward Happy Hairston is matched against DeBusschere, and the Knicks' 6'8" Jerry Lucas at center goes against the 7'1" Chamberlain.

Milwaukee's Kareem Abdul Jabbar, at least an inch taller and a decade younger, couldn't outmuscle an inspired 55-year-old Chamberlain last week.

"There was just no way that series was going to go more than six games," said Fred Schaus, the Lakers' general manager. "I've never seen Wilt quite like that. He grimaced at every call."

It wasn't so easy for Oakland against the Yankees. The A's battled back from a 3-0 deficit, tying the score on a homer by Gene Tenace and a two-run triple by Sal Bando.

Oakland finally pushed across

the winning run in the 12th when rookie Bobby Brooks walked, moved up on a sacrifice and scooted home on pinch hitter Mike Hegan's first-pitch double. When Hegan reached second base, he peered out to

wards the Yankee bullpen. His father, Jim, is a New York coach.

"I'm happy to see him get a hit," said the senior Hegan. "But I don't like to see him beat us."

Homer By Hebner Defeats Cincy In 13 Innings, 5-2

PITTSBURGH (AP)—Despite teeth-chattering cold, a few thousand diehard fans shivered to the end at Three Rivers Stadium, determined to overcome the thermometer and the Cincinnati Reds.

Their tenacity was—richly if not warmly—rewarded by Richie Hebner's two-out home run

in the 13th inning that lifted the Pittsburgh Pirates to a 5-2 victory.

"I hit the ball, and I was thinking if it's caught it's go out there and freeze your (bleep) off again," Hebner said after the Tuesday night game.

The clout cleared the right field fence just to the left of the

Pirate bullpen, where jacketed pitchers huddled around a small fire.

The bullpen hands leaped with joy and beat a path to the locker room to escape temperatures in the mid 30s, which had driven away more than half of the original crowd of 6,509.

The score had been tied 2-2 for 8½ innings before Hebner's home run off former Pirate pitcher Joe Gibbon.

Roberto Clemente walked to open the 13th inning and later took second on a wild pitch by Gibbon. An intentional pass to Manny Sanguillen cleared the way for Hebner.

"It was a slider, and I don't think he wanted to get it down the middle like he did," Hebner said of the home run pitch.

The homer was the second of the season for the 24-year-old Hebner, who batted seventh in the power-laden Pirate lineup. He hit a total of 20 late season.

The big gun for Cincinnati Tuesday night was Johnny Bench, who broke out of a slump with a run - scoring double in the first inning and a solo home run in the third.

Prior to the game, Bench had managed one hit in 22 times at bat.

The first two Pirate runs came on a single by Al Oliver. Scoring on the play were pitcher Bob Johnson who had singled and Rennie Stennett who had doubled.

Pacers Face 'Must' Game With Stars

BLOOMINGTON, Ind. (AP) — The Indiana Pacers are perilously close to ruining one of professional basketball's great rivalries.

If the Pacers fall to the Utah Stars in tonight's American Basketball Association playoff game, Utah will have its second straight Western Division title at the Pacers' expense.

The Stars, who beat Indiana 4-3 in last year's division series finals and went on to beat the Kentucky Colonels for the ABA crown, lead the current series 3-2.

For the past three years, though, the Indiana-Utah rivalry has been fierce—and close.

In 1970, Indiana, then in the East Division, beat the then Los Angeles Stars for the ABA championship; in 1971, the Pacers edged the Stars by one game for the Western Division title in regular-season play but lost to them in the division playoff finals.

This year, Utah captured the season series from the Pacers, 7-5, and finished 13 games ahead of Indiana going into the playoffs. The Stars polished off Dallas in four straight games, while the Pacers struggled past Denver 4-3.

Before this year's playoffs, a one-point difference separated the Stars and Pacers over their previous 31 encounters.

Earl Morrall Goes To Miami Dolphins

MIAMI (AP) — Coach Don Shula of the Miami Dolphins says that in picking up Baltimore's Earl Morrall on waivers he acquired "an intelligent quarterback who's won a lot of ball games for me."

The 37-year-old understudy to Johnny Unitas was acquired from the Colts for the \$100 waiver price Tuesday. He will join George Mira, Jim Del Gaizo and rookie Craig Curry in the struggle to win the back-up job to the Dolphins' Bob Griese.

Brinker Sets Shot Record

Vikings Thinclads Nipped By WJ

Jack Brinker set a new Teays Valley record in the shot but the Vikings were edged by West Jefferson, 64½-62½, in a dual track meet Tuesday on the Roughriders oval.

Brinker tossed the shot 53 feet 4 inches to break his own school record of 53 feet 1½ inches.

The Vikings garnered seven first place finishes, eight second spots and six third places in the meet.

Bob Smith was a double individual winner for the Blue and Gold. He captured the mile run with a time of 4:49.4 and led the field in the 440 run in 56.7.

OTHER first place winners for the Vikings were Howard Reed, discus, 123 feet 11 inches; Jeff Sheets, high jump, 5 feet 4 inches; Randy Nungester, pole vault, 9 feet, and the mile relay team, Sheets, Don Burgoon, Terry Lockard and Fred Rice, 4:05.1.

Second spots were taken by Reed, shot; Brinker, discus; Jim Logsdon, 120 high hurdles; Rice, 880 run; Lance Henson, 220-yard dash; Gary Hines, two-mile run, and Tony Sayre, pole vault.

Third place finishes went to John Little, shot and discus; Henson, 110-yard dash; Lockard, 440 run; Boyd Palsgrove, 180 low hurdles, and

\$395,330 In Stadium Bills Face Cincinnati Teams

CINCINNATI (AP) — City officials are trying to collect \$395,330 that they say three Riverfront Stadium tenants owe for electricity bills from June 30, 1970, until March.

The city, which owns the stadium and has paid the Cincinnati Gas & Electric Co. for the electricity usage, is seeking reimbursement from the Cincinnati Reds, Cincinnati Bengals, and Sportservice, Inc., the stadium concessionaire.

The tenants disagree over the amount each is said to owe because the electricity usage has been registered on a single meter at the stadium.

During a meeting among Reds, Bengals and city officials Tuesday, stadium manager Don Wehmeyer said the city pre-

Wood, White Sox Shut Out Tribe, 6-0

By HAL BOCK
Associated Press Sports Writer
Call Marvin Miller. The American League's hitters are back on strike—but there every time Wilbur Wood and his knuckleball go to work for the Chicago White Sox.

Wood has pitched 36 innings this season and allowed exactly one run. Only a two-out homer by Kansas City's Bob Oliver in the bottom of the ninth inning of his first start mars Wood's pitching record so far.

The rubber-armed right-hander hurled his third consecutive shutout Tuesday night, baffling Cleveland 6-0 as the White Sox won their sixth straight game.

In other American League action Tuesday, Oakland edged New York 4-3 in 12 innings, Minnesota blasted Boston 12-0, Kansas City trimmed Baltimore 3-0, California downed

Milwaukee 4-1 and Detroit took Texas 4-1.

The White Sox have played nine games this season and Wood has started four of them. He works with two days rest because the knuckler puts virtually no strain at all on his pitching arm.

Pitching dominated elsewhere in the AL too.

Dick Drago's two-hitter ended Kansas City's six-game losing streak as the Royals blanked Baltimore.

California's Clyde Wright, Jim Perry of Minnesota and Detroit's Mickey Lolich all had four-hitters.

Wright drove in two runs in the seventh inning with a clutch double as the Angels snapped a 1-1 tie by scoring three times.

Lolich survived a shaky first inning to subdue Texas, ending the Rangers' four-game winning streak. Tony Taylor tripled home two runs for the Tigers.

Perry coasted past Boston as Steve Braun and Steve Brye combined to drive in seven runs for the Twins.

Minnesota piled up nine runs in the first two innings, making it easy for Perry.

TV Crushed By Roughriders; Remain Tied For Metro Lead

Costly errors hurt Teays Valley Tuesday as the Vikings dropped an 11-3 decision to the Roughriders of West Jefferson in a game played on the Vikings' diamond.

The big difference in the game came in the mistake department where the Vikings booted the ball six times while the Roughriders played errorless ball.

Jerry Sabine, Roy Good, Sam Wilson and Terry Southern all saw mound duty for the Blue and Gold. They gave up seven hits, six walks and fanned nine. Bill Chenuh hurled the victory for West Jefferson. He allowed eight safeties, three walks and struck out five.

JOE Lombardo led the Vikings at the plate with a double and two singles. Jeff Beatty rapped a double while Terry Lambert, Phil Salvers, Dabst and Dave Chaffin had a single for the losers. Haskins blasted a four-run homer for the Roughriders.

The Vikings tallied two runs in the second inning and added their final marker in the fifth. West Jeff scored once in the

Heidelberg Names Head Cage Coach

TIFFIN, Ohio (AP) — Former Kent State University basketball player David T. Grube, 28, an assistant basketball coach at Wooster College the past two seasons, has been named head cage coach at Heidelberg College.

Grube inherits a team that posted a 2-19 record last winter, including a 2-11 record in the Ohio Conference. He succeeds Richard Norman, who resigned in March after posting a five-year record of 37 wins and 60 losses.

The Nets trail Virginia 2-1 in the series after Rick Barry's layup with eight seconds left lifted New York to a 119-117 victory Monday night.

The game was close throughout and the Squires mauled the Nets under the boards, 64-44.

"We can't get beat off the boards that way and hope to win again," Nets' Coach Lou Carnesteca said after his team reviewed films of the game Tuesday.

Squires rookie standout Julius Erving pulled down 22 caroms, but was handcuffed in the second half due to the close defensive efforts of Ollie Taylor. Erving poured in 27 points in the first half but managed only four in the second under Taylor's scrutiny.

John Heft Named WSU Cage Assistant

PULLMAN, Wash. (AP) — John Heft, former player and assistant coach at Bowling Green State University in Ohio, has been named an assistant basketball coach at Washington State University, Ray Nagel, WSU athletic director said Tuesday.

Braves Bomb Gibson, Cardinals, 9-3

By KEN RAPPOPORT Associated Press Sports Writer

Home run No. 642 was a little more tasty for Hank Aaron. It was dished up by Bob Gibson.

"That's probably the last fast ball I'll see from him this year," said Aaron after his two-run shot helped the Atlanta Braves bomb the St. Louis Cardinal ace 9-3 Tuesday night.

Gibson, who rarely grooves one for hitters, threw one down the middle on an apparent "take" pitch—a 3-0 count.

"He was just trying to put it down," said Aaron. "You've got to take advantage of Gibby when he throws one like that."

The home run, Aaron's third this year, moved him another step closer to Babe Ruth's lifetime record of 714. The Braves' star currently is in third place,

four behind San Francisco's Willie Mays.

In the other National League games, the Pittsburgh Pirates defeated the Cincinnati Reds 5-2 in 13 innings; the Houston Astros trimmed the Chicago Cubs 5-4; the New York Mets beat the San Diego Padres 2-1; the Los Angeles Dodgers turned back the Montreal Expos 6-1 and the Philadelphia Phillies blanked the San Francisco Giants 3-0.

Aaron's two-run blast gave the Braves a 6-0 lead after two innings. Earl Williams highlighted a four-run rally in the first with a two-run shot over the left field fence.

Aaron, coming out of an early slump, has collected five hits in his last three games and raised his average to .176.

The Pirates won their game with a dramatic, three-run homer by Richie Hebner with two out in the 13th. Only a couple of thousand fans were left by that time as temperatures dropped into the mid-30s in Three Rivers Stadium.

The blast unlocked a 2-2 tie that existed from the third inning. Roberto Clemente walked to open the 13th, advanced to second after two were out on a wild pitch, and remained there while Manny Sanguillen was intentionally walked so Gibson could get at the left-hitting Hebner.

Pitcher Jerry Reuss scored the winning run in the seventh inning and earned his second victory of the season with a five-hitter as Houston beat Chicago. Lee May slugged his

fourth homer for the Astros, a two-run smash in the fourth. Buzz Capra and Chuck Taylor combined on a six-hitter and the New York Mets bounced from behind with two unearned runs in the seventh inning.

Frank Robinson knocked in two runs with a double and a single and Willie Crawford slammed a home run as Los Angeles turned back Montreal. Don Sutton allowed five hits for the Dodgers before he was forced from the game when hit by a line drive in the eighth inning.

Steve Carlton shackled San Francisco on one hit—a leadoff single up the middle to Chris Speier—to lead Philadelphia over the Giants. The big left-hander struck out 14 to record his second straight shutout.

Old Timers Clash Scheduled June 17

CINCINNATI (AP) — Two of the hardest hitting teams in professional baseball history — the Cincinnati Reds of 1956 and New York Yankees of 1961 — will clash in an old timers contest here June 17.

First baseman Ted Kluszewski, outfielder Wally Post, and catcher Ed Bailey are among Cincinnati players planning to participate. The 1956 players combined for a share of the National League team home run record of 221.

Yankee outfielders Mickey Mantle and Roger Maris, catcher Yogi Berra, and pitcher Whitey Ford have been asked to compete. The 1961 Yankees smashed a major league record 240 homers.

Air Force basketball coach Hank Egan played for Navy in 1960.

second, a single run in the third, two more in the fourth, a lone tally in the fifth, erupted for four big runs in the sixth frame and capped the scoring with two runs in the seventh.

Teays Valley is now 3-2 in Metropolitan League play and are in a four-way tie for first place. They are 3-4 for the season and will be at Wehrle today.

Rebounding Crucial For Nets

UNIONDALE, N.Y. (AP) — Rebounding could be the crucial factor if the New York Nets hope to tie their best-of-7 American Basketball Association Eastern Division playoffs tonight against the Virginia Squires.

Ohio Supreme Court Appeal Set On Vote

Decision Against Amendment Will Kill Issue

COLUMBUS, Ohio (AP) — The continuing legal battle over the form a proposed amendment to the Ohio Constitution is to take on the May 2 primary ballot has shifted to the state's Supreme Court.

Assistant Atty. Gen. Tom Martin late Tuesday filed a notice of appeal with the high court not long after the 10th District Court of Appeals here refused to reconsider a ruling handed down on Monday ordering Secretary of State Ted Brown to divide the package amendment containing 14 separate issues.

The court said any such lumping together of issues that forces voters to resolve all questions with a single vote stood in violation of the 16th Article of the Ohio Constitution.

Included in the amendment package are constitutional changes allowing expense accounts for legislators, requiring candidates for governor and lieutenant governor to run together on the same ballot, and making a number of changes in operating procedures of the Ohio General Assembly.

The filing of the notice of appeal by the attorney general's office with the high court is a preliminary requirement for filing a formal appeal of the lower court's decision.

Brown said the move is necessary because "any ballot changes at this late date are physically impossible."

"We made some checks with the large counties..." Brown added, "and they say it is impossible to comply with the court order."

"There just isn't enough time to change ballots and settings on voting machines before next Tuesday."

"We're in the position of having to jump over the moon when we can't get 15 feet off the ground," added James Marsh, elections counsel to Brown.

The high court gave no indication when it would hear the formal appeal once it has been filed.

Humphrey . . .

(Continued from Page 1)

He told supporters in Pennsylvania that after being viewed as a candidate in a tailspin, "we're on our way up again."

There was no evidence of that Tuesday.

In Massachusetts, where Muskie had the backing of big name Democrats, his delegate slate of officeholders and party leaders was trailing a McGovern lineup of insurgents and unknowns.

Wallace said he was pleased with his showing, particularly in Pennsylvania, and forecast victory over Humphrey in Indiana, where they also meet next Tuesday.

The Alabama governor also said he would put more emphasis on the May 9 West Virginia primary where Humphrey is his opponent, too.

Muskie is on the Indiana ballot, but dropped his campaign plans there to focus on Ohio.

"It looks like the showdown may be here in Indiana," Wallace said in Indianapolis.

Humphrey said he knew in advance that Pennsylvania would be pivotal to his campaign.

"The results tonight clearly demonstrate that the vital progressive center of the Democratic party has come to a decision as to its candidate to oppose and to defeat President Nixon," he said.

In a victory statement after the Massachusetts contest, McGovern said, "I think that Tuesday night is getting to be the happiest night of the week... Now let's go on to Ohio."

He went into the Tuesday primaries with 95½ committed convention delegates, four behind Muskie. He emerged with well over 200.

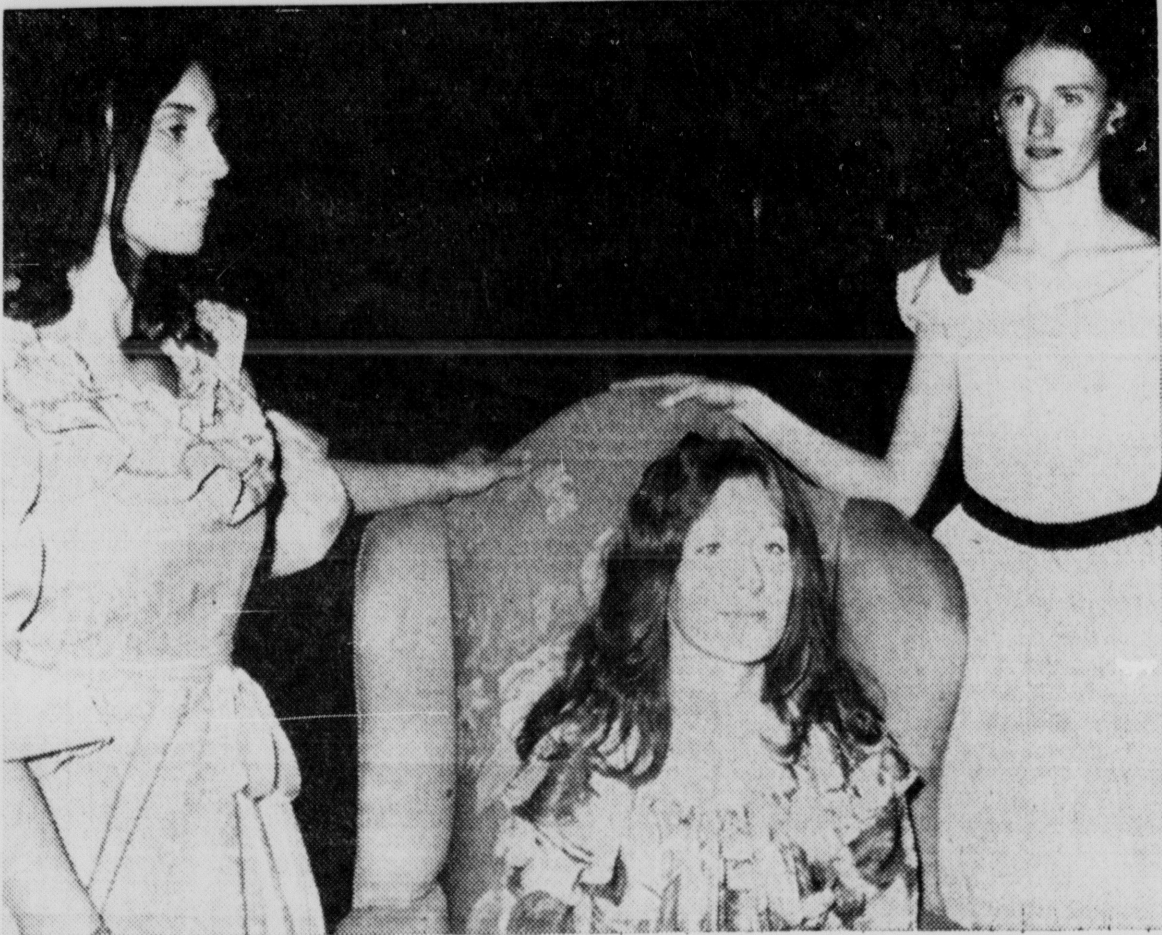

It will take 1,509 to choose the Democratic nominee.

Circleville Rotary Conference Hosts For All District

Circleville Rotary is host this weekend for the district's annual conference.

The two-day session will be attended by members of 32 clubs from the south central part of the state, having a total enrollment of 2,400 members.

The Circleville chapter has planned an extensive round of activities for the conference which meets Friday and Saturday at Scott's Inn in Columbus.

The conference will officially open 2:30 p.m. tomorrow with a declaration by Larry Varble, conference chairman and a memorial service by Rev. Foster Jenne. Also on the podium will be LeRoy Williams, representative of Rotary International President.

Circleville is the home chapter of Robert G. Smith, elected district governor of District 699 of Rotary International. He will preside over a breakfast Saturday with all current club presidents. The District Governor nominee Bill Toop of Westerville, will be introduced later that morning.

Entertainment for the weekend will include an old-fashioned sing-a-long Friday and a big show Saturday featuring Komar the Hindu Fakir and the Kobelt, following the big banquet honoring the new governor.

During the session, members will be given a chance to meet three Rotary Foundation recipients: Susan Treen of Lancaster, a future recipient; Frank Bessa de Silva of Brazil, present recipient and David Ladd of Athens, Ohio and Stephen Frantich of Granville, both past recipients.

Discussion sessions are planned on topics — Trip to South America and Project Hope. Mrs. Judy Hilton, a special assistant to Project Hope, will be guest speaker.

A general session will be held before noon Saturday electing two new members to the District Nominating Committee and a new District Secretary.

Following the luncheon, Dr. Fred E. Luchs, of Athens, Ohio, special speaker at the conference, will address the group. Voted one of America's 100 outstanding preachers, Luchs has led a much-traveled life. He studied and traveled in 14 European countries in 1934 and took part in a pulpit exchange with an European minister five years later.

Luchs was associate editor of Twentieth Century Quarterly for ten years and author of several prayer books. His writings have been translated into several languages.

Last year he made five world trips and many times served as high school and college commencement speaker.

LeRoy Williams will follow as speaker, representing Rotary International President Ernst G. Bretholtz of Kalmar, Sweden. Williams will address Rotarians

New Data . . .

(Continued from Page 1) part of a discussion on an unrelated matter a few days later.

Kleindienst had testified that he could not recall discussing the case with anyone from the White House but that if he did, it was only in a casual manner.

The ITT settlement was completed, the Justice Department said, last July 31 and announced the following day.

Further muddling the case, it was disclosed Wednesday that Rohatyn had resigned from the stock-exchange surveillance committee at least two weeks before he met with Flanigan.

Kennedy released testimony from a hearing last June 23 before the Senate permanent subcommittee on investigations in which a letter from Rohatyn to Robert W. Haack, president of the New York Stock Exchange, was inserted.

The letter, dated June 11, 1971, read in part: "As I have indicated to you previously, I would now like to step down as chairman of the surveillance committee."

Foundation Buys Still-Life Painting

NEW YORK (AP) — The Norton Simon Foundation has purchased a still-life painting by Francisco Zurbarán, the 17th century Spanish artist, for around \$3 million.

The price is the third highest on record for a painting. It is surpassed only by the \$5.5 million the Metropolitan Museum of Art paid for a Velasquez portrait and the \$5-million to \$6-million the National Gallery is said to have paid for a work by Leonardo.
